

### **Career Talk : Darwin Rhodes - Finding the right piece for you**

On April 20, 2010 at 6:30pm, the Department of Applied Mathematics invited Darwin Rhodes Group Branch Manager (Hong Kong) Miss Carina Szeto and her colleagues Mr Matt Siu, Mr Dan Lee to give us a career talk named “Finding the right piece for you”. In the talk, they shared with us how people interested in Actuarial Science would look for a job in the field and what path a student can persude in the Actuarial career. They also gave us a lot of tips and advises in job application.

About 30 people attended and they raised a lot of questions on the employment market of Actuarial, key techniques for interviews, software programme which would beneficial to them in finding a job in the field. Students were so enthausiastic that the Q & A session ended 30 minutes after the original scheduled time.
