

Career Talk: Dickson Cheung, Citigroup – “Pathway to Success in Financial Industry”

The Department of Applied Mathematics had invited Mr. Dickson Cheung, Head of Asia Pacific, Corporate Equity Derivatives, Capital Markets Origination of Citi, to give our students a Career Talk named **“Pathway to Success in Financial Industry”** on 26 April 2011 evening 6:45 p.m., at room BC302.

In the talk, Dickson shared with us the first hand information about different job functions, products and services in investment banking industry, as well as real-life challenges in an Equity Derivates Division. He also shared with our students his insights about critical success factors in the job hunt process.

35 students attended the talk. Students raised lots of questions. Dickson provided us his personal expereinces on the employment situations in the financial sector. Students commented the talk was informative and full of valuable insider view, as well as professional insights. The overall feedback was very good.
