

## **Career Talk by The Hong Kong Institute of Bankers (HKIB)**

**Speaker: Ms. Wendy Li (General Manager of Professional Qualifications & Membership**

### **Topic: Professional Development in Banking Industry**

On 18 November 2011 evening 6:45 p.m., Department of Applied Mathematics had invited Ms. Wendy Li, the General Manager of Professional Qualifications & Membership of The Hong Kong Institute of Bankers, to deliver a career talk to our AMA students.

During the career talk, Wendy not only introduced the mission and objectives of The Hong Kong Institute of Bankers, but also the career opportunities in the Banking and Finance Industry. Most importantly, Wendy updated students with the latest information about the professional training offered by the HKIB so that students who were interested in developing their future career in the Banking and Finance Industry could equip themselves with the current industry needs.

Students were very active in asking questions and Wendy kindly gave a lot of advice so that students could know more about the practice and operations of the banking industry.

The overall feedback was good and around 50 students attended the talk.
