1. Education

1988: Ph.D. major in Engineering-Economic Systems and minor in Operations Research. Thesis Title "Interior Algorithms for Linear, Quadratic and Linearly Constrained Convex Programming," Stanford University, Stanford, California. Thesis Advisor Committee (in alphabetic order): Sam Chiu, George Dantzig, David Luenberger, Edison Tse.

1987: Visiting Ph.D. Student, School of Operations Research and Industrial Engineering, Cornell University, Ithaca, New York.

1983: M.S. in Engineering-Economic Systems, Stanford University.

1982: B.S. in Systems and Control, Huazhong University of Science and Technology (HUST), Wuhan, The People's Republic of China.

2. Professional Experience

04/02---: Professor and Director of the Industrial Affiliates Program of Management Science and Engineering and, by courtesy, Electrical Engineering, Stanford University, Stanford, CA, USA---Mathematical Programming, Algorithm Design and Analysis, Network and Information System Applications.

04/06-07/06: Visiting Chair Professor, Tsinghua University, China.

01/98---04/02: Henry B. Tippie Research Professor, Department of Management Sciences and Applied Mathematical and Computational Sciences, The University of Iowa, Iowa City, Iowa, USA.

12/00---05/01: Visiting Professor, Department of Systems Engineering and Engineering Management, Chinese University of Hong Kong, Hong Kong.

09/98---11/98: Visiting Fellow, Mathematical Science Research Institute, UC Berkeley, California.

09/93---1/98: Professor, Department of Management Sciences, The University of Iowa, Iowa City, Iowa.

08/93---12/93: Visiting Scientist, Department of Operations Research and Industrial Engineering, Cornell University, Ithaca, NY.

06/93---present: Adjunct Professor, Institute of Applied Mathematics, the Chinese Academy, Beijing, China.

06/93---present: Adjunct Professor, Department of Mathematics, Fudan University, Shanghai and Huazhong University of Science and Technology, Wuhan, China.

09/90---8/93: Associate Professor, Department of Management Sciences, The University of Iowa, Iowa City, Iowa.

07/91---8/91: Visiting Scientist, Department of Mathematical and Computational Sciences, Rice University, Houston, TX.

09/88---08/90: Assistant Professor, Department of Management Sciences, The University of Iowa, Iowa City, Iowa.

11/87---08/88: Research Scientist, Optimization Software Development, Integrated Systems Inc., Santa Clara, California.

09/86---06/87: Lecturer, Mathematical Programming and Systems Optimization, Department of Engineering-Economic Systems, Stanford University.

06/83---06/86: Research Assistant, Mathematical Programming, Decision Systems and Network Planning, Department of Engineering-Economic Systems, Stanford University.

3. Publications (singly authored if no author names shown)

3.1 Refereed Journal Papers

- [J112] "Further Relaxations of the SDP Approach to Sensor Network Localization," (Wang, Song, Boyd and Ye), Working Paper, Management Science and Engineering, Stanford University (September, 2006); to appear in SIAM J. Optimization.
- [J111] "A Distributed SDP approach for Large-scale Noisy Anchor-free Graph Realization with Applications to Molecular Conformation," (Biswas, Toh and Ye), posted March 29/05), to appear SIAM Journal on Scientific Computing.
- [J110] "Finding Equitable Convex Partitions of Points in a Polygon Efficiently," (Carlsson, Armbruster and Ye), November, 2006, to appear in the ACM Transactions on Algorithms.
- [J109] "Exchange Market Equilibria with Leontief's Utility: Freedom of Pricing Leads to Rationality," Theoretical Computer Science, [Volume 378, Issue 2](#), 6 June 2007, Pages 134-142.
- [J108] "SPASELOC: AN ADAPTIVE SUBPROBLEM ALGORITHM FOR SCALABLE WIRELESS SENSOR NETWORK LOCALIZATION," (MICHAEL CARTER, HOLLY JIN, MICHAEL SAUNDERS, and YINYU YE), appeared in SIAM J Optimization Online (2006).
- [J107] "Approximation Algorithms for Metric Facility Location Problems," (M. Mahdian, Y. Ye and J. Zhang), SIAM J Computing 36:2 (2006) 411-432.
- [J106] "Semidefinite Programming Based Algorithms for Sensor Network Localization," (Pratik Biswas, Tzu-Chen Liang, Ta-Chung Wang and Yinyu Ye), ACM J on Transactions on Sensor Networks 2:2 (2006) 188-220.
- [J105] "Semidefinite Programming Approaches for Sensor Network Localization with Noisy Distance Measurements," (Pratik Biswas, Tzu-Chen Liang, Kim-Chuan Toh, Ta-Chung Wang and Yinyu Ye), IEEE Transactions on Automation Science and Engineering, 3:4 (2006) 360-371.
- [J104] "An Improved Algorithm for Approximating the Radii of Point Sets," (Kasturi Varadarajan, S. Venkatesh, Yinyu Ye and Jiawei Zhang), SIAM J Computing 36:6 (2007) 1764--1776.
- [J103] "On Approximating Complex Quadratic Optimization Problems via Semidefinite Programming," (So, Zhang and Ye), 2004; appeared in Math. Programming Online (2006).
- [J102] "Lot-sizing scheduling with batch setup times," (B. Chen, Y. Ye and J. Zhang), Journal of Scheduling, 9:3 (2006) 299 - 310.
- [J101] "A Path to the Arrow-Debreu Competitive Market Equilibrium," 2004, appeared in Math Programming Online (2006).
- [J100] "On Solving Fewnomials Over Intervals in Fewnomial Time," (Maurice Rojas and Y. Ye), Journal of Complexity, Volume 21, Issue 1 (Foundations of Computational Mathematics Conference 2002 special issue, 2005) 87-110.
- [J99] "A new complexity result on solving the Markov decision problem," Math of OR, 30:3 (2005) 733-749.
- [J98] "Improved complexity results on solving real-number linear feasibility problems," 2002, Math Programming, 106:2 (2006) 339-363.
- [J97] "Theory of Semidefinite Programming for Sensor Network Localization," (Anthony So and Ye), *Mathematical Programming*, Series B, 109:367-384, 2007.
- [J96] "A Multi-Exchange Local Search Algorithm for the Capacitated Facility Location Problem," (Zhang, Chen and Ye), Math of OR, 30:2 (2005) 389-403.

- [J95] "Improved Combinatorial Approximation Algorithms for the k-Level Facility Location Problem," (Ageev, Ye and Zhang), *SIAM J Discrete Math.* 18:1 (2004) 207-217.
- [J94] "New results on quadratic minimization," (S. Zhang and Y. Ye), *SIAM J. Optimization*, 14:1 (2003) 245-267.
- [J93] "Approximate the 2-Catalog Segmentation Problem Using Semidefinite Programming Relaxations," (C. Xu, Y. Ye and J. Zhang), *Optimization Methods and Software*, 18:6 (2003) 705 – 719.
- [J92] "On some interior-point algorithms for nonconvex quadratic optimization", (P. Tseng and Y. Ye), *Mathematical Programming*, 93 (2003) 217-225.
- [J91] "Approximation of dense- $n/2$ -subgraph and the complement of min-bisection," (Y. Ye and J. Zhang), *JOURNAL OF GLOBAL OPTIMIZATION*; JAN 2003; v.25, no.1, p.55-73
- [J90] "A Note on the Maximization Version of Multi-level Facility Location Problems", (J. Zhang and Y. Ye), *Operations Research Letters*, 30:5 (2002) 333-335.
- [J89] "Optimization with a few violated constraints," (E.W. Bai, Y. Cho, R. Tempo and Y. Ye), *IEEE Trans. on AC* 47:7 (2002) 1067-1077.
- [J88] "An Approximation Algorithm for Scheduling Two-Parallel Machines with Capacity Constraints," (H. Yang, Y. Ye and J. Zhang), *Discrete and Applied Mathematics*, 130:3 (2003) 449-467.
- [J87] "Improved Approximation for Max Set Splitting and Max NAE SAT," (J. Zhang, Y. Ye, and Q. Han), *Discrete and Applied Mathematics*, 142:1-3 (2004) 133-149.
- [J86] "On approximation of Max-Vertex-Cover," (Q. Han, Y. Ye, H. Zhang and J. Zhang), *European Journal of Operations Research*. 143:2 (2002) 342-355.
- [J85] "Blind channel equalization using ϵ -approximation algorithms", (Q. Li, E.W. Bai and Y. Ye), *IEEE Trans. on Signal Processing* 49:11 (2001) 2823-2831.
- [J84] "An improved rounding method and semidefinite relaxation for graph partition," (Q. Han, Y. Ye, and J. Zhang), *Mathematical Programming* 92:3 (2002) 509-535.
- [J83] "A .699 approximation algorithm for Max-Bisection," *Mathematical Programming* 90:1 (2001) 101-111.
- [J82] "Characterizations, bounds, and probabilistic analysis of two complexity measures for linear programming problems," (M. Todd, L. Tunçel, Y. Ye), *Mathematical Programming* 90:1 (2001) 59-70.
- [J81] "Convergence results of analytic center estimator," (E. Bai, M. Fu, R. Tempo, and Y. Ye), *IEEE Transactions on Automatic Control* 45:3 (2000) 569-572.
- [J80] "On smoothing methods for the P_0 matrix linear complementarity problem," (X. Chen and Y. Ye), *SIAM J. Optimization* 11 (2001) 341-363.
- [J79] "Solving large-scale sparse semidefinite programs for combinatorial optimization," (S. Benson, Y. Ye, and X. Zhang), *SIAM J. Optimization* 10 (2000) 443-461.
- [J78] "An efficient algorithm for minimizing a sum of P-norms," (G. Xue and Y. Ye), *SIAM J. Optimization* 10 (2000) 551-579.
- [J77] "Mixed linear and semidefinite programming for combinatorial and quadratic optimization," (S. Benson, Y. Ye, and X. Zhang), *Optimization Methods and Software* 11&12 (1999) 515-544.

- [J76] ``Approximating global quadratic optimization with convex quadratic constraints," *Journal of Global Optimization* 15 (1999) 1-17.
- [J75] ``Approximating quadratic programming with bound and quadratic constraints," *Mathematical Programming* 84 (1999) 219-226.

3.4 Working Papers

[W19] "Competitive Communication Spectrum Economy and Equilibrium," (Ye), Working Paper, Management Science and Engineering, Stanford University (October, 2007).

[W18] "The Fixed-Hub Single Allocation Problem: A Geometric Rounding Approach," (Dongdong Ge, Ye and Zhang), Working Paper, Management Science and Engineering, Stanford University (March, 2007).

[W17] "A Unified Theorem on SDP Rank Reduction," (So, Ye and Zhang), Working Paper, Management Science and Engineering, Stanford University (November, 2006).

[W16] "Newsvendor Optimization with Limited Distribution Information," (Zhu, Zhang and Ye), Working Paper, Management Science and Engineering, Stanford University (November, 2006).

[W15] "Solving Min-Max Multi-Depot Vehicle Routing Problem," (Carlsson, Ge, Subramaniam, Wu and Ye), Working Paper, Management Science and Engineering, Stanford University (October, 2006).

[W14] "A Convex Parimutuel Formulation for Contingent Claim Markets," (Peters, So and Ye), Working Paper, Management Science and Engineering, Stanford University (October, 2005).

[W13] "A Gradient Search Method to Round the Semidefinite Programming Relaxation Solution for Ad Hoc Wireless Sensor Network Localization," (Liang, Wang and Ye), posted August 24/04; Report updated 10/1/04 and Demo updated 10/10/04.

[W12] "A distributed method for solving semidefinite programs arising from Ad Hoc Wireless Sensor Network Localization," (Biswas and Ye), posted October/30/03.

- [W11] "An approximation algorithm for scheduling aircraft with holding time" (A.~M.~Bayen, C.~J.~Tomlin, Y. Ye and Jiawei Zhang) Working Paper, Aeronautics and Astronautics, Stanford University (April, 2003).
- [W10] "On the Budgeted MAX-CUT problem and its Application to the Capacitated Two-Parallel Machine Scheduling," (J. Zhang and Y. Ye), Working Paper, Department of Management Sciences, The University of Iowa (March, 2001).
- [W9] "Solving sparse semidefinite programs using the dual scaling algorithm with an iterative solver," (C. Choi and Y. Ye), Working Paper, Department of Management Sciences, The University of Iowa (March, 2000).
- [W8] "Computational Optimization Laboratory Positive Semidefinite Programming User Guide," (S. Benson, Y. Ye, and X. Zhang), Working Paper, Department of Management Sciences, The University of Iowa (February, 1999).
- [W7] "Convergence behavior of the central path for homogeneous and self-dual cones," Working Note, Department of Management Sciences, The University of Iowa (December, 1995).
- [W6] "A superlinearly convergent $O(n^5L)$ -iteration algorithm for linear programming," (Y. Ye, R. Tapia and Y. Zhang), TR91-22, Department of Mathematical Sciences, Rice University (1991).
- [W5] "A low complexity combined phase I-phase II potential reduction algorithm for linear programming," Working Paper No. 91-1, College of Business Administration, The University of Iowa (1991).
- [W4] "Line search in potential reduction algorithms for linear programming," Working Paper, College of Business Administration, The University of Iowa (1989).
- [W3] "A 'build-up' interior method for linear programming," (G. Dantzig and Y. Ye) SOL Report, Department of Operations Research, Stanford University (1990).
- [W2] "Bimatrix equilibrium points and potential functions," Working Paper No. 88-16, College of Business Administration, The University of Iowa (1988).
- [W1] "Further development of the interior algorithm for convex quadratic programming," manuscript, Stanford University and Integrated Systems Inc., Stanford, CA (1987).

4. Students, Courses, and other Professional Contributions

Ph.D. Students:

John Kaliski,	1992	Anlon Systems Inc., Mankato, Minnesota
Ronald Bosch	1994 (joint)	Harvard University, Bio-statistics, School of Public Health
Pi-Fang Huang	1995	Taiwan Dong-Hai University
Erling Andersen	1996 (visiting Ph.D.)	Founder of MOSEK.com, Optimization Software
Tienbin Qian	1997 (joint)	Motorola at Arizona, Operations Management Team
Steve Benson	1999	Argonne National Lab at Chicago
Jiawei Zhang	2004	NYU
Anthony So	2007	Stanford
Pratik Biswas	2007	Stanford
Mark Peters	present	Stanford
Dongdong Ge	present	Stanford
John Carlsson	present	Stanford
Zhishu Zhu	present	Stanford

Courses listed on <http://www.stanford.edu/~yyye/course.html> .

Computer Software/Programs listed on <http://www.stanford.edu/~yyye/Col.html> .

Over 100 invited presentations

Patent through Stanford Technology License:

- * A SEMI-DEFINITE PROGRAMMING METHOD FOR AD HOC NETWORK NODE LOCALIZATION, 2005
- * Convex Parimutuel Call Auction Mechanism (S05-349), 2006

5. Professional Affiliations

- * [The Institute For Operations Research and The Management Science](#)
- * Society for Industrial and Applied Mathematics.
- * Mathematical Programming Society.

6. Professional Activities

- * [Elected Vice Chair of the SIAM Activity Group on Optimization \(SIAG/OPT\), 2008.](#)
- * Plenary speaker at the 19th International Symposium on Mathematical Programming, Rio de Janeiro, 2006.
- * Area Editor of *Operations Research* (2005-), Chief Editor of *Optimization & Engineering* (2000-) and Pacific Journal of Optimization (2003-).
- * Associate Editor of *Management Science* (2004-), *Mathematics of Operations Research* (1998-2001), *Optimization Methods and Software* (2003-), *SIAM Journal on Optimization* (1990-1997), *Journal of the Operations Research Society of Japan* (1998-).
- * Selected as a **highly cited mathematical researcher** on <http://www.ISIhighlycited.com> 2003
- * Distinguished Speaker in High Performance Computation for Engineered Systems (HPCES), MIT, 2002.
- * Semi-plenary speaker at the 17th International Symposium on Mathematical Programming, Atlanta, 2000.
- * Section Officer (Linear Programming) of the Institute for Operations Research and the Management Sciences, (1997-2000).
- * Co-organizer of the 1999 DIMACS Princeton workshop on discrete optimization.
- * Member of the International Advisory Committee for the 15th and 16th International Symposium on Mathematical Programming (1992-1997).
- * Topic Coordinator for the 15th International Symposium on Mathematical Programming (1992-1994).
- * NSF proposal review panelist (1994,1995,1996, 2000, 2002).
- * Referee for *Mathematics of Operations Research*, *Mathematical Programming*, *SIAM Journals*, *Operations Research*, *Linear Algebra and its Applications*, and *Journal of Optimization Theory and Applications*, etc.
- * Reviewer for National Science Foundation, USA; Natural Sciences and Engineering Research Council of Canada, Research Grant Council of Australia, Research Grant Council of Hong Kong, Sciences and Engineering Research Council of Chile.
- * The Iowa Business School Faculty Research Committee, 1996-.
- * The Iowa Business School Promotion and Tenure Committee, 1995-1996.
- * The University of Iowa Vice-President for Research Advisory Committee, 1994-1995.
- * Director, the Management Science Computational Optimization Lab, 1994-.
- * The University of Iowa Computing Service Committee, 1991-1993.

7. Present and Past Industrial and Consulting Activities

[Consultant and research work for various industries, include](#) Boeing (2004-), American Express, etc. (2006-), AT&T (1992-93), Polaris Wireless Inc (2006-), AtRoad, Inc. Fremont (2006-), Barcelona Design Inc, (1998-2004), Huawei Technologies Co., Ltd. (China) (2005-), TISCO Inc. (China) (2006-), etc on [supply chain, dynamic resource allocation, facility location, sensor network localization and routing, financial optimization, circuit design, collection games, project management, task scheduling, etc.](#)

8. Awards and Funded Research

- * The recipient of the 2007 Stanford Asian American Faculty of Year Award
- * The first recipient of the Farkas Prize of the INFORMS Optimization Society (awarded bi-annually), 2006.
- * Elected as an INFORMS Fellow November 6, 2006
- * Principle Investigator (1 of 1), NSF Grant for Complexity of Market Equilibrium, 2006-2008.
- * BASES Innovators' Challenge First-Place Winners, 2004: Pratik Biswas and Yinyu Ye on sensor network localization.
- * BASES Innovators' Challenge First-Place Winners, 2005: Holy Jin, Mike Carter, Mike Saunders and Yinyu Ye on sensor network management.
- * Principle Investigator (1 of 2), Game and dynamic decision making, American Express, 2005-2007.
- * Principle Investigator (1 of 1), Dynamic Resource Allocation, Boeing Company, 2004-2007.
- * Principle Investigator (1 of 1), Stochastic Optimization, Boeing Company, 2004-2007.
- * Principle Investigator (1 of 1), NSF Grant for Markov Decision Problem and Linear Programming, 2003-2006.
- * Principle Investigator (1 of 1), NSF Grant for Semidefinite Programming and Approximation Algorithms, 1999-2003.
- * Principle Organizer (1 of 2), Semidefinite Programming and Large-Scale Discrete Optimization Workshop, DIMACS and Princeton University, 1999.
- * Research Fellow, Mathematical Science Research Institute, UC Berkeley, 1998.
- * Co-Principal Investigator (1 of 5), NSF Grant for Computational Infrastructure and Equipments, 1998-.
- * Co-Principal Investigator (1 of 4), NSF Grant for Hybrid Optimization for Protein Structure, 1998-1999.
- * Co-Principal Investigator (1 of 4), The University of Iowa Biosciences Initiative Pilot Grant, 1998.
- * Principal Investigator (1 of 1), NSF Grant for computational complexity, 1997-2000.
- * Australian Research Council, The University of New South Wales, 1997.
- * The Japan Education Ministry, The Institute of Statistical Mathematics, 1996.
- * Principal Investigator (1 of 1), NSF Grant for mathematical programming, 1995-1998.
- * Dutch Organization for Scientific Research (NWO), Delft University, 1994-1997.
- * Obermann Fellowship, 1994.
- * The Cornell University Theory Center, 1993-1994.
- * Principal Investigator (1 of 1), NSF Grant for linear programming interior-point algorithms, 1993-1995.
- * Award of K. C. WONG Education Foundation, Hong Kong, 1993.
- * Principal Investigator (1 of 1), NSF Grant for linear programming, 1990-1992.
- * Principal Investigator (1 of 1), MCI Contract for real time restoration, 1991-1992.
- * Principal Investigator (1 of 1), The College Summer Grants, College of Business of Administration, The University of Iowa, 1989-1997.
- * Principal Investigator (1 of 2), The Center for Advanced Studies Interdisciplinary Research Grant, The University of Iowa, 1991-1992.
