

The Hong Kong Polytechnic University

Subject Description Form

Subject Code	AP603
Subject Title	Research seminars III
Credit Value	4
Level	6
Pre-requisite / Co-requisite/ Exclusion	None
Objectives	<p>The main objectives of this series of research seminars/workshops is to</p> <ul style="list-style-type: none"> • provide an opportunity for our research students and research staff to present the latest results of their research achievement to their peers, • bring together research students, research staff, and professors within AP department to exchange and share knowledge and experience on various aspects of scientific research, • provide an in-depth analysis and study of specific research topics and update the knowledge of recent development in the related research communities, and to • invite local and oversea research scientists/professors to present their recent advancement and/or to explain their view in the future development of research areas of excellent. <p>Hence, this series of research seminars/workshops will</p> <ul style="list-style-type: none"> • bring together research students, research staff, academicians and experts to exchange and share knowledge and experience on various aspects of scientific research with the invited speakers, and • improve our connection and visibility to the research communities.
Intended Learning Outcomes	<p>Upon completion of the research seminars /workshops, students will be able to:</p> <ul style="list-style-type: none"> • achieve instant critical thinking – analysis and evaluation of assumption, claims, evidence, and arguments during the short period of discussion as well as raise questions. • improve information literacy – develop capability to distinguish different kinds of information sources, composing search strategies, and retrieving useful and relevant information. • refine communication skill – demonstrate the capability in written and spoken (English as a medium) to present and discuss research information within the scientific community and society. • establish networking – get to know researchers and scientists in their field of studies.
Subject Synopsis/ Indicative Syllabus	<ul style="list-style-type: none"> • Nanomaterials included 2D materials • Photonic Materials and Devices • Smart Materials and Devices • Theoretical and Computational Physics

Teaching/Learning Methodology	In order to stimulate and motivate the students' interest in the seminar/workshop participation, the hottest and latest advancement research topics will be presented. This will lead to the students' further exploration of potential novel research directions and studies as well as stimulated the students' creative thinking.
