From: Academic Secretariat  
Date: 29 November 2017

### **Class Timetable for Semester 2 of 2017-18**

The class timetable for Semester 2 of 2017-18 will be available for your checking starting from **9:00 a.m. of Thursday 30 November 2017**. You can gain access to the class timetable enquiry system via eStudent (<http://www.polyu.edu.hk/student/>).

#### **Viewing of Timetable Information**

The following 2 options of class timetable are available for viewing.

i) ***Personal Timetable***

**If you have performed subject registration** earlier this year or have been assigned subjects by your department, you will be provided with a personal class timetable in which all subject components successfully timetabled are shown.

If you notice that some subjects you have previously selected are not included in the timetable, it may be due to timetable clashes which result in your not being able to take those subjects in the coming semester. For these cases, you can take replacement subject(s) during the period from 8 to 10 January 2018.

ii) ***Subject / Programme Timetable (under “Subject Search”)***

**If you have not yet performed subject registration (mostly students of part-time/mixed-mode programmes)** or have not been assigned subjects by your department, you will not be provided with any personal class timetable. You should search the class timetable information using this option to check the timetable of the subjects which you intend to take in the coming semester.

For students who would like to select Cluster Area Requirements (CAR) / Service Learning (SL) subjects, please check the timetable of CAR / SL subjects by selecting “Subject Category”.

#### **CAR Subjects to be Offered in the Evening / Saturday Sessions**

Please note that some CAR subjects have been timetabled in the evening and Saturday sessions so as to provide better chances for students to take these subjects. The subject list as of 29 November 2017 is attached [here](#) for your reference.

Please approach your department if you have any queries on the timetable.
