Being an exchange student in Mainland China was a fruitful learning experience. It is an effective way to learn Putonghua, understand the culture of Mainland China and make friends with people coming from all over the world. This exchange experience has sharpened my competitive edge and I am proudly to say that it is the highlight in my university life.

I am glad to have this exchange experience as I have made lots of changes and get lots of unforgettable memories. During this exchange, I have met a lot of new friends including local students, international students and Taiwan exchange students. I have enjoyed getting along with all of them. They were all very nice. We have built up our friendship. We still keep on contacting with each other after the exchange. Apart from studying, we also have had the opportunity to travel to different places in China such as Xian, Qingdao,

Inner Mongolia, Hangzhou, Suzhou, Nanjing etc. Exploring to different places really has provided me a chance to broaden my horizons and understand more about Chinese culture.

It was an exciting experience to live in a new environment and tried new things with new friends. Also, it was impressive to visit different parts of China, especially the super long-hour train journey.

Cheung Ting, Department of Logistics and Maritime Studies
Peking University

"You can never say you know a country well until you have been there, tasted and experienced those local cultures in person!" During the exchange period, I met and learned a lot, which were extra credits to my whole life.

Ko Tak Yan, Department of Building and Real Estate
Tsinghua University

It was a wonderful experience to be exchanged to Tsinghua University. The traditional culture of the Great China could let you enjoy being part of it. Inside the dramatically large school campus, you could always get lost. Even though you had a bicycle with you, which was a must, you still needed to spend more than 10 minutes to get to your classroom for lesson. The classical architecture design of the campus building made you love this place.

Lam Pui Ni, School of Accounting and Finance
Peking University

Generally, this was a great experience. And you can definitely meet many new friends from all over the world.
