

THE HONG KONG POLYTECHNIC UNIVERSITY

DEPARTMENT OF REHABILITATION SCIENCES

Post Specification

Research Assistant (Ref. 19011604)

[Appointment period: five months initially, with possibility of further appointment]

Duties

The appointee will assist the project leader in the research project - “Investigation of the novel function of FGF21/ β klotho in mediating physical exercise induced hippocampal plasticity”. He/She will be required to investigate the underlying mechanisms of physical exercise-induced hippocampal plasticity in diseased animal models with learning and memory impairment.

Qualifications

Applicants should have:

- (a) an honours degree in Biological Sciences or related disciplines or an equivalent qualification; and
- (b) a good command of both written and spoken English.

Preference will be given to those with research experience, particularly in immunohistochemistry and animal behavioral testing.

Applicants are invited to contact Dr Sonata Suk-Yu Yau at tel no. 2766 4890, fax no. 2330 8656 or email sonata.yau@polyu.edu.hk for further information.

Remuneration

A highly competitive remuneration package will be offered. Applicants should state their current and expected salary in the application.
