

THE HONG KONG POLYTECHNIC UNIVERSITY

DEPARTMENT OF MECHANICAL ENGINEERING

Post Specification

Research Associate / Research Assistant (Ref. 19070307)

[Appointment period: six months]

Duties

The appointee will assist the project leader in the research project - “Photocatalyst for air purification and disinfection”.

Qualifications

For the **Research Associate** post, applicants should have a master’s degree or a good honours degree in materials, chemical, mechanical and environmental engineering with three or more years of research/relevant work experience.

For the **Research Assistant** post, applicants should have an honours degree in the aforementioned disciplines or equivalent qualification.

For all posts, applicants should also have knowledge of / experience in fabrication as well as laboratory and field testing of photocatalyst. Preference will be given to those with good project engineering skills and experience in nanomaterial fabrication.

Applicants are invited to contact Prof. Wallace Leung Woon-fong at tel no. 2766 6670 or email wallace.leung@polyu.edu.hk for further information.

Remuneration

A highly competitive remuneration package will be offered. Applicants should state their current and expected salary in the application.
