

MES is an Asia-based BIM Project Management Consultancy (PMC) for the digital transformation of the Architecture, Engineering and Construction (AEC) industry founded in February 2011. We are the trusted partner to Asia's leading governments and private property developers, architects, contractors, and construction education institutions. Currently, MES has strategically located offices in Hong Kong (Headquarter) • Malaysia, Shanghai & Zhuhai (IT & Technical Hubs) • United Kingdom (Research Centre) • Philippines & India (Technical Centre).

Job Requirements

Position: BIM Coordinator/BIM Modeller

Responsibilities:

- Working with Designers/Main Contractors to develop and coordinate infrastructure/building design in Revit and generate drawings for documentation purposes.
- Modelling of existing infrastructure/buildings required for coordination and to put new designs into context
- Assisting Engineers with coordination and clash detection exercises
- Adhere to BIM Execution Plan and BIM project workflow criteria
- Take the lead on developing discipline specific BIM modelling content i.e., families and explore automation opportunities using Dynamo, sub assembly composer, part builder, infrastructure parts editor, Revit families and other tools
- Support daily model management administration and maintenance and check they comply with project BIM and drawing standards
- Work under direction of design and construction professionals and the BIM manager

Requirements:

- High Diploma or above in Architectural / Engineering / Construction disciplines preferable.
- 3 years plus experience working on multidiscipline Infrastructure/building projects. (Less experience may consider as BIM Modeller)
- Knowledge and experience of using Revit with a Common Data Environment to develop, coordinate and document infrastructure designs.
- Knowledge and experience of using Navisworks for clash detection would be a must
- Knowledge of Civil 3D is an advantage
- Proactive team player who wants to develop their career goals and push the boundaries
- Highly IT literate with excellent command of standard office software.
- HKIBIM membership or CICBIM qualification would be an advantage.

Benefits & Others

- Five-day work week
- Performance bonus
- Transportation allowance
