

Presentation

What is a presentation?

- University students are often asked to do presentation after some independent studies like a project. Professionals in the real world are often involved in presentations too. In a presentation, you have to explain a topic to your teacher and classmates.

Activity

Have a look at the diagram below...

Each **suggested action** (small bullet points in 3 rectangular boxes) helps you attain one or more **learning goals** (big bullet points in the middle big circle) – **Can you see how they are related? Draw a line to link them up!**

SUGGESTED ACTIONS

Before a presentation...

- Clarify the theme of your presentation.
- Organise the content of your presentation.
- Prepare the presentation materials.
- Be critical about your presentation content. Make sure that it is clear and logical.

Some **LEARNING GOALS** of a presentation:

- **Sharpen your understanding** because you must have a good understanding yourself before you can explain the topic clearly.
- Develop your **logical mind** because a good presentation must be clear and logical.
- Develop your **language and communication skills**.
- Enhance your **self-confidence**.

SUGGESTED ACTIONS

After a presentation...

- Review your performance at the presentation.

SUGGESTED ACTIONS

During a presentation...

- Be confident and try your best to put up a good show
- Try your best to learn from your classmates' comments about your presentation.

Where to go from here?

- Are there other learning goals?
- Are there any other possible actions?
- Which suggested actions will you try first?
