

Conscious thoughts...

**What are you grading?**

Specifically, what are you looking for in a perfect assignment—the elements that make the assignment.

E.G.

- Contents: technical know-how, knowledge of theory, evidence supporting thoughts and theories, application of knowledge into situations
- Performance: overall look-and-feel of the piece of work, structure of work, presentation of ideas

**How are you grading?**

Need to clearly understand how to ‘score’ the piece of work.

E.G. (5 level grading)

- By Levels: Excellent-Very Good-Good-Average-Poor
- By Point: 5-4-3-2-1, A-B-C-D-E
- By Weight

**Why are you grading?**

Standard answer—to assess student’s knowledge. Even so, what are the specifics that should be present? What is the key takeaway from this assignment?
