My SPECIAL Journey of All-round Development

I was wondering whether it's possible for a university student to gain so many scores when I first heard of the Award Scheme. But it was so attractive that I couldn't help planning my own journey to become SPECIAL.

I began talking workshops on various topics, and I really enjoyed them. Apart from providing me with interesting and useful knowledge, the programmes also gave me chances to make new friends.

My journey hasn't ended yet;
it has just started...

SPECIAL is really special

SPECIAL is a way by which I can enhance my all-round qualities and relax at the same time. Yes, I have learnt a lot from taught and fun!

SPECIAL encourages me to challenge myself and to be brave, to get early preparation for my career, to learn more languages, to have an insight into various aspects in life and to serve the community, etc.

Because of SPECIAL, I have gained more confidence and my career goal has become clearer; I have made many friends and my life has become more joyful and colourful.

SPECIAL makes me special!
