Part-Time Bachelor’s Degree and Sub-Degree Programmes

PolyU offers a wide range of part-time Bachelor’s degree and sub-degree programmes. Through a regular system of validation, we maintain high-quality programmes that are relevant to our graduates and professionally designed to meet community needs.

Programme Types

**Bachelor’s Degree**
These part-time programmes are often based on corresponding full-time programmes, and are usually a continuation of Higher Diploma studies.

**Post-experience Certificate**
These programmes are designed to meet the growing demand for upgrading the job-related knowledge and skills of those in employment. They are at a level above Higher Diploma or Higher Certificate programmes.

**Higher Diploma**
This is high-level training to prepare students for senior technician posts or positions of an equivalent level. Graduates can later proceed to related degree programmes, either through part-time or full-time study.

**Higher Certificate**
These programmes prepare students to become higher technicians, or equivalent-level personnel. Graduates can pursue studies further through related degree programmes, by part-time or full-time study.

**Certificate**
These programmes prepare students for employment as technicians, or in equivalent-level positions.

Modes of Study

Part-time programmes are undertaken according to the study modes that are specified in the individual programme entries.

**Distance Learning**
You will study privately, with self-contained learning material issued regularly throughout your programme. You may also be required to attend tutorials and/or practical sessions at PolyU. Telephone counselling is available if you encounter any problems in your studies.

Apart from working through the learning material and carrying out prescribed assignments and practical work, you will sit end-of-semester examinations.

**Part-time**
Most of the classes are held in the evening. You may, however, have to take examinations during the daytime as well as in the evening.

**Part-time Evening**
You will normally attend classes on at least two evenings a week.
