YEARS OF ANIMATION

Time flies really fast! I don't wanna write this kind of 'last' letter.. But I will. Because there're so many words I wanted to tell you.

Still remember the time we talked in your room. I was afraid of all of things, English, people and myself haha. But after we talked, I felt like I found something I wanna do while I'm in Switzerland. You gave me bravery to do something I've never tried before. To be honest, I was not that a driven person during this semester. But I feel like I did not have regrets. It is strange to say like this, but to me, you were kind of guide line for me hahaha. You were always sincere, hardworking and definitely nice girl. You always wanted to share something you think it is cool.
