United to fight COVID-19

Support PolyU's Response to the COVID-19 Outbreak

As Hong Kong and the nation confront the COVID-19 pandemic, PolyU and community is contributing in the collective efforts to respond to the outbreak. A world's fastest rapid multiplex diagnostic system is invented, face shields to protect frontline medical staff are designed and produced for Hospital Authority, hand sanitizers are produced for the needy, and more.

Many alumni and friends have asked how they can help PolyU and support its work. Our goal is not to end with the COVID-19 when it is under control, but to continue our work to responding quickly to the future virus and health threats, so as to make a lasting impact. Please join us in this mission.
