

Call For Papers

An International Conference on Nonlinear Programming with Applications (NPA2006) is to be held during 29 May - 1 June, 2006 in Shanghai, China

<http://www.polyu.edu.hk/~ama/events/conference/NPA2006/an1.htm>

The conference aims to provide a forum for eminent researchers and practitioners working in nonlinear programming and its applications to gather together to report and exchange their latest works.

Two special issues are to be edited which will solicit high quality papers from the participants in the Conference. All the papers submitted to the special issues will go through the rigorous refereeing procedures as set by the respective journal.

Two special issues and their guest editors are:

“Optimization”

Guest Editors:

S.Y. Wang, Institute of System Sciences,

X.Q. Yang, The Hong Kong Polytechnic University, and

D.L. Zhu, Fudan University

“Mathematical Methods of Operations Research”

Guest Editors:

G.Y. Chen, Institute of System Sciences,

X.X. Huang, Fudan University, and

X.M. Yang, Chongqing Normal University

Submission deadline: 30 September 2006.

If you intend to submit a paper to the special issue of “**Optimization**”, please send your paper to Prof. Xiaoqi Yang via email: mayangxq@polyu.edu.hk.

If you intend to submit a paper to the special issue of “**Mathematical Methods of Operations Research**”, please send your paper to Prof. Xuexiang Huang via email: xxhuang@fudan.edu.cn.

3 May 2006
