

CURRICULUM OF FULL-TIME BSC(HONS) IN ENGINEERING PHYSICS – SENIOR YEAR

Total credits requirement for 11439-SY is 65 credits or above^{}:**

3. General University Requirement (GUR)

a. Cluster Areas Requirement (CAR) (6 credits)

Students are required to take a specially designed CAR(A) – English Language Subject with embedded English Reading and Writing Requirements, and CAR (M) - Chinese Language Subject embedded Chinese Reading and Writing Requirements starting from 2022/23.

b. Service-Learning (3 credits)

c. Essential Components of General Education E-modules on: (Non-credit-bearing)

1. Academic Integrity (To be completed by Week 5 of Sem 1)
2. Artificial Intelligence and Data Analytics
3. Innovation and Entrepreneurship
4. National Education

➔ Four individual e-modules on Blackboard for two consecutive semesters (from Sem 1 to Sem 2)

2. Discipline-Specific Requirement (DSR)

a. 11439-SY Discipline-Specific Subjects (44 credits)

b. Free Elective Subjects (12 credits) with subject level 3 or above, from AP/ other departments.

c. Work-Integrated Education (WIE) (Non-credit-bearing): 120 hours

The Language and Communication Requirements (LCR) is normally not required. Only those students not meeting the equivalent standard of the Undergraduate Degree LCR (based on their previous studies in AD/HD programmes and their academic performance) will be required to take LCR subjects on top of the normal curriculum requirement. AP will refer to the guidelines provided by the Language Centres (ELC and CLC) to determine whether a new student has met the equivalent standard, with special reference to academic writing ability.

*Programme leader will provide academic counseling to students upon their admission and before subject registration. New students' academic backgrounds will be reviewed, and see if they need to take other physics fundamental courses in order to enrich their knowledge.
