Subject Synopsis/ Indicative Syllabus	<ol> <li>Occupational Mental Health: Related Concepts and Theories</li> <li>Occupational Mental Health within Managerialism, Productivity, Accountability and Competitivity</li> </ol>				
ast updated in Aug 2020	- 1 -	ADEE5772/for the	academic year of 2020-21		

	<ol> <li>Interpersonal Stress and Dynamics within an Organizational Context</li> <li>Professional Burnout and Occupational Stress in Human Service Organization</li> </ol>						
	<ul> <li>5. Handling Stress, Burnout and Mental Problems within an Organization</li> <li>6. Developing a Mentally Healthy Human Service Organization</li> <li>The participation of students in both lectures and seminars are crucial for learning in this subject. Apart from having lectures on related concepts and theories, students are required to undergo a critical self reflection of their experiences and coping in dealing with their stress in their own working organization. They are also required to carry out a case study of the occupational mental health situation within a human service organization. Their findings are shared and presented in seminars with other students in this subject.</li> </ul>

	Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes: Assessment will be based on seminar presentation chosen by the students and their participation in class. Students are also required to complete a reflective journal and a term paper. In the reflective journal, students are required to undergo a critical self reflection of their experiences and coping in dealing with their stress in their own working organization. In the term paper, they are required to critically examine a related topic on occupational mental health.
