Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes:

Quizzes – They are designed to enhance students' understanding of the concepts acquired from the lectures, online learning artefacts, and assigned readings. These quizzes serve as both a supplement to the lectures and a self-learning tool for facilitating students' integration and internalization of knowledge. Information from these quizzes will facilitate formative assessment of students' learning.

Participation in blended learning activities – In-class & off-class activities, such as completion of online inventories, SRS enabled in-class discussion and off-class forum discussion, allow interpersonal interactions among students to facilitate assimilation and synthesis of new knowledge through active and peer learning. They are designed to facilitate students' learning and engagement on the relevant issues discussed in this subject in a collaborative and constructive approach.

Individual term paper –Students are required to write an individual term paper of around 2500 words. Students should report their experiences of applying of theories and assessments to develop a plan for personal and career development, an in-depth reflection of their learning in the subject, and a brief review of an assessment taught in the subject.

University's English writing (EW) and reading (ER) requirements
The online quizzes and the term paper mentioned above serve to enhance students' literacy skills and facilitate students to meet the University's English Writing (EW) and Reading (ER) requirements.

For “ER” requirements, the subject syllabus should include no less than 10% of the total assessment that can only be answered successfully upon completion of the reading, without relying on exposition by the instructors before the assessments. To enable students to meet the “ER” requirement, students are required to read the prescribed readings (100,000 words or 200 pages), that include several chapters of the recommended textbook. Online quizzes will be used to assess students' mastery of the reading materials and grade the extent the students fulfil the “ER” requirement.

For “EW” requirements, the students should submit online two online submission of the same piece of extensive writing in order for ELC staff to provide feedback and assess the progress made by the student in the writing process and the quality of their work. The first submission should be an essay plan supported by academic sources, and the second submission should be a draft of around 1,500 words. Students must obtain a D or above on the Writing Requirement assignment to pass the subject. This includes the 10% from the ELC and 30% or more from the CAR teacher on content.

Notes:

	<p>The final grade is calculated according to the percentage assigned. The completion and submission of all component assignments are required for passing the subject.</p>	
Student Study Effort Expected	Class contact:	
	▪ Lectures	39 Hrs.
	Other student study effort:	
	▪ Review of learning artefacts (e.g. readings, videos)	36 Hrs.
	▪ Preparation for quizzes / other online learning activities	18 Hrs.
	▪ Individual Term Papers Write-Up: Drafts & Revisions	40 Hrs.
	Total student study effort	133 Hrs.

Note 1: Intended Learning Outcomes

Intended learning outcomes should state what students should be able to do or attain upon completion of the subject. Subject outcomes are expected to contribute to the attainment of the overall programme outcomes.

Note 2: Subject Synopsis/ Indicative Syllabus

The syllabus should adequately address the intended learning outcomes. At the same time over-crowding of the syllabus should be avoided.

Note 3: Teaching/Learning Methodology

This section should include a brief description of the teaching and learning methods to be employed to facilitate learning, and a justification of how the methods are aligned with the intended learning outcomes of the subject.

Note 4: Assessment Method

This section should include the assessment method(s) to be used and its relative weighting, and indicate which of the subject intended learning outcomes that each method purports to assess. It should also provide a brief explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes.
