Teaching & Learning Methodology	Lecture Lectures are used to provide a guided study and stimulate the students' interest in Chinese psychology. Students would build up their knowledge and applytical skill				
	Chinese psychology. Students would build up their knowledge and analytical skill through the reflection on relevant topics.				
	Seminar				
	Seminars are aimed to encourage guided inquiry and discovery of learning. Students would also critically evaluate one's own performance and constructively criticize peers' performance. Supplemented with tutorials, students could clarify concepts learned, discuss related subject matter, and share experiences.				

Assessment Methods in Alignment with	Specific assessment methods/tasks			Intended subject learning outcomes to be assessed		
Intended Learning	Class and seminar participation	15	a √	b	$\frac{c}{}$	
Outcomes	Class and seminar participation	15	V	V	N	
	Group Seminar Project	45	$\checkmark$			
	An Individual (Reflective) Term Paper	40	$\checkmark$			
	Total	100				
	<ul> <li>The grade is calculated according to the percentage assigned;</li> <li>The completion and submission of all component assignments are required for passing the subject; and</li> <li>Students must receive an overall pass grade when all components are combined in order to pass the subject.</li> </ul>					
	<ul> <li>combined in order to pass the subject.</li> <li>Explanation of the appropriateness of the assessment methods related to the Intended Learning Outcomes: <ul> <li><u>Class and seminar participation</u></li> <li>It is used to assess the students' ability to communicate their ideas effectively and evaluate critically among the relevant topics.</li> <li><u>Group Seminar Project</u></li> <li>Seminars are used to assess students' level of understanding of topics and their ability to apply the main concepts to difference contexts. The seminar project is used to assess students' comprehension of a topic, knowledge of related area and ability to analyze and evaluate.</li> <li><u>An Individual (Reflective) Term Paper</u> It is used to assess students' intellectual abilities of connecting theoretical knowledge to real practice. Students can seek personal meanings and values from practice and to criticize their own and others' practice. </li> <li>The grade is calculated according to the percentage assigned;</li> <li>The completion and submission of all component assignments are required for passing the subject.</li> </ul></li></ul>					
Student Study Effort Expected	Class contact:					
	Lecture			27	Hrs.	
	Seminar			12	Hrs.	
	Other student study effort:					
	Self reading			39	Hrs.	
	Preparation for the assignment	lent		42	Hrs.	

	Total student study effort	120 Hrs.			
Medium of Instruction	English				
Medium of Assessment	English
