

Subject Description Form

Subject Code	APSS3224														
Subject Title	Social Data Analytics														
Credit Value	3														
Level	3														
Pre-requisite/ Co-requisite/ Exclusion	NIL														
Assessment Methods	<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 33%;">100% Continuous Assessment</th> <th style="width: 33%;">Individual Assessment</th> <th style="width: 33%;">Group Assessment</th> </tr> </thead> <tbody> <tr> <td>1. Written assignment</td> <td style="text-align: center;">--</td> <td style="text-align: center;">40%</td> </tr> <tr> <td>2. Presentation & participation</td> <td style="text-align: center;">30%</td> <td style="text-align: center;">--</td> </tr> <tr> <td>3. Quiz</td> <td style="text-align: center;">30%</td> <td style="text-align: center;">--</td> </tr> </tbody> </table> <ul style="list-style-type: none"> The grade is calculated according to the percentage assigned; The completion and submission of all component assignments are required for passing the subject; and Student must pass all component(s) (standard of passing) if he/she is to pass the subject. 			100% Continuous Assessment	Individual Assessment	Group Assessment	1. Written assignment	--	40%	2. Presentation & participation	30%	--	3. Quiz	30%	--
100% Continuous Assessment	Individual Assessment	Group Assessment													
1. Written assignment	--	40%													
2. Presentation & participation	30%	--													
3. Quiz	30%	--													
Objectives	<p>This subject aims to enable students to :</p> <ol style="list-style-type: none"> 1. acquire an understanding of basic data science applications in social research; 2. design social research that emphasizes causal inference; 3. acquire skills in using various data analytical tools. 														
Intended Learning Outcomes	<p>Upon completion of the subject, students are able to:</p> <ol style="list-style-type: none"> a. display competencies in informational literacy that include the ability to find, acquire, evaluate, manage and use information in a range of media; or acquire, organize and present information through technology-based activity; b. apply problem-solving skills, including using logical, critical and innovative thinking to identify critical issues, conceptualize problem and formulate solutions, collect, collate and analyze relevant information for social change and community improvement; c. communicate effectively in oral, written, numerical and graphic forms to present well-reasoned argument. 														

Subject Synopsis/ Indicative Syllabus	1. Introduction 2. Data visualization 3. Designing social research 4. Collecting social data online 5. Causal effects 6. Causal mediation 7. Text analysis 8. Spatial analysis 9. Machine learning																															
Teaching/Learning Methodology	Lectures are employed to facilitate students' learning of the subject. The lectures introduce students to the major concepts and theories. The instructors also demonstrate the applications of various data analysis tools. Students are encouraged to discuss and analyze various social issues with reference to those concepts and skills they have acquired.																															
Assessment Methods in Alignment with Intended Learning Outcomes	<table border="1" data-bbox="488 853 1445 1361"> <thead> <tr> <th rowspan="2">Specific assessment methods/tasks</th> <th rowspan="2">% weighting</th> <th colspan="3">Intended subject learning outcomes to be assessed (Please tick as appropriate)</th> </tr> <tr> <th>a</th> <th>b</th> <th>c</th> </tr> </thead> <tbody> <tr> <td>1. Written assignment</td> <td>40%</td> <td>✓</td> <td>✓</td> <td>✓</td> </tr> <tr> <td>2. Presentation & participation</td> <td>30%</td> <td>✓</td> <td>✓</td> <td>✓</td> </tr> <tr> <td>3. Quiz</td> <td>30%</td> <td>✓</td> <td>✓</td> <td>✓</td> </tr> <tr> <td>Total</td> <td>100%</td> <td></td> <td></td> <td></td> </tr> </tbody> </table> <p data-bbox="488 1413 1458 1480">Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes:</p> <p data-bbox="488 1496 724 1529"><u>Written assignment:</u></p> <p data-bbox="488 1547 1458 1648">Students are required to submit a group written assignment after their project presentation. In writing the paper, students are expected to draw upon relevant concepts and theories in analyzing the selected topic.</p> <p data-bbox="488 1664 552 1697"><u>Quiz:</u></p> <p data-bbox="488 1715 1458 1816">A quiz will be conducted in class. Students are required to demonstrate the knowledge and skills they have learnt in the subject. The quiz is an effective method to assess how much the students have learnt.</p> <p data-bbox="488 1832 935 1865"><u>Project presentation and participation:</u></p> <p data-bbox="488 1883 1458 1984">Students have to team up to work on a project and to deliver a verbal presentation in class, so as to convey their findings in a coherent manner and be able to respond satisfactorily to questions and critiques of their presentation.</p>				Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed (Please tick as appropriate)			a	b	c	1. Written assignment	40%	✓	✓	✓	2. Presentation & participation	30%	✓	✓	✓	3. Quiz	30%	✓	✓	✓	Total	100%

Student Study Effort Required	Class contact:	
	▪ Lecture and project presentation	39 Hrs.
	Other student study effort:	
	▪ Self-studies (including preparation for seminars, writing term paper, revision and preparation for the quiz)	65 Hrs.
	Total student study effort	104 Hrs.
