Term Paper</td> <td style="text-align: center;">50%</td> <td></td> </tr> </tbody> </table> <ul style="list-style-type: none"> The grade is calculated according to the percentage assigned; The completion and submission of all component assignments are required for passing the subject; and Student must pass the specific component(s) (standard of passing) if he/she is to pass the subject. 			100% Continuous Assessment	Individual Assessment	Group Assessment	1. Seminar Presentation		40%	2. Participation	10%		3. Term Paper	50%	
100% Continuous Assessment	Individual Assessment	Group Assessment													
1. Seminar Presentation		40%													
2. Participation	10%														
3. Term Paper	50%														
Objectives	<p>This subject focuses on professional practice involving the dynamic and interactive processes of engagement, assessment, intervention, and evaluation at multiple levels. Social workers are expected to have the knowledge and skills to practice with individuals, families, groups, organizations, and communities. This subject aims to equip students with the basic abilities to recognize and select appropriate intervention theories to inform these practice processes with innovation. In addition, this subject will also touch upon the ethical issues, dilemmas and politics of social work intervention practice.</p>														
Intended Learning Outcomes	<p>Upon completion of the subject, students will be able to:</p> <ol style="list-style-type: none"> a. Recognize how different approaches/perspectives that will affect the implementation of the tasks and roles in social work practice b. Select appropriate intervention theories with reference to the situations and the needs of service users 														

	<p>c. identify ethical issues and dilemmas of professional practice</p> <p>d. recognize the moral, political and cultural dimensions of social work interventions</p>																																		
Subject Synopsis/ Indicative Syllabus	<ul style="list-style-type: none"> Recognizing and applying theories, approaches and models in guiding social work practice Working with individuals: choice theory Working with families: structural family therapy Working with/in community: Empowerment & Strengths Perspective, Social Development models and Structural Social Work Moral-political-cultural nature of social work practice Integration of theory and practice: the role of reflection and practice knowledge in integration of theory and practice Innovation in practice and intervention 																																		
Teaching/Learning Methodology	<p>In addition to lectures conducted by the subject teacher, self-reflection exercises, audio-visual materials, simulation games, and demonstration will be used to facilitate classroom teaching. Web-based Learning is also used to facilitate student learning. Seminars will be used to enable the students to discuss practice issues related to the knowledge learned in the class. A small group of around 4 students will organize discussion, case studies or debates among their fellow classmates. In seminar sessions, the subject teacher will serve as a consultant and a resource person.</p>																																		
Assessment Methods in Alignment with Intended Learning Outcomes	<table border="1"> <thead> <tr> <th rowspan="2">Specific assessment methods/tasks</th> <th rowspan="2">% weighting</th> <th colspan="4">Intended subject learning outcomes to be assessed (Please tick as appropriate)</th> </tr> <tr> <th>a</th> <th>b</th> <th>c</th> <th>d</th> </tr> </thead> <tbody> <tr> <td>1.
