

BRE Scholars Ranked Among Top 2% of Scientists In the World

Congratulations to our colleagues on the high ranking in the World in Stanford Study!

The colleagues include Prof. Albert Chan, Prof. Li Heng, Prof. Geoffrey Shen, Prof. Edwin Chan, Prof. Eddie Hui, Dr Patrick Lam, Prof. Ni Meng, Prof Zayed Tarek, Dr Daniel Chan, Dr Patrick Fong and Dr Darko Amos.

The scholars are listed in the “Updated science-wide author databases of standardized citation indicators” that are compiled by Stanford University. This publicly available database of over 100,000 top-scientists across the world is available to offer standardized information on citations, h-index, co-authorship adjusted hm-index, citations to papers in different authorship positions and a composite indicator. It also provides metrics with and without self-citations and ratio of citations to citing papers. There are 22 scientific fields and 176 sub-fields of scientists. Field- and subfield-specific percentiles are also offered to all scientists who have published at least 5 papers. Career-long data are updated to end-of-2020.

The following two tables highlight the colleagues’ rankings in terms of ‘Single Year Impact Statistics’ and ‘Career-long Impact Statistics’.
