

The First Outstanding BRE Alumni Award 2010 – Awardee

Brief Biography

Sr Thomas HO Hang Kwong

**Higher Diploma in Surveying / Building Technology
(Year of Award : 1971)**

Sr Ho is currently Property Director of MTR Corporation Limited, the major businesses of which extend from railway operations, development of residential and commercial projects, and property investment and management, to international consultancy services. Serving in both the MTR Corporation Board and the Executive Committee, Sr Ho plays a key role in developing and managing all properties above and adjacent to MTR stations and depots. He supervises a multi-disciplinary team of professionals responsible for planning, design, construction and management of large-scale property developments associated with railway stations and depots. His great endeavour in publicizing and realizing the MTR integrated “Rail + Property” development model has remarkable contributions to the urban development of Hong Kong and cities in Mainland China. Before joining the MTR Corporation Limited, Mr. Ho served in the field of surveying in the Building & Lands Department and Public Works Department of the Hong Kong Government.

Sr Ho also keeps a close connection with the industry and the community. He is presently a Fellow of the Royal Institution of Chartered Surveyors, Fellow of the Hong Kong Institute of Surveyors, Co-chairman of Corporate and Employee Contribution Programme Organizing Committee of Community Chest of Hong Kong, as well as Honorary Professor of the Department of Real Estate and Construction of the University of Hong Kong. He previously served as Member of the Executive Committee of the Hong Kong Housing Society.

Sr Ho actively supports the Department of Building and Real Estate of the PolyU by sharing his professional knowledge, valuable experience and insight of property development with students and academics in seminars. Besides, he is currently serving as a Member of the Advisory Committee of the Department. Sr Ho’s wide expertise and substantial contribution have been highly valuable to the development of the property industry, both locally and internationally.
