

Department of Construction Management and Intelligence (CMI) MSc in Project Management

Programme Overview

Professionals who are skilful in project management and capable of innovating and providing creative solutions to complex problems are in great demand in business corporations. This programme offers opportunities for practising architects, construction managers, engineers, surveyors, technologists and related professionals to further develop their knowledge of project management, which enables them to analyse holistically and solve problems with innovative approaches.

Programme Structure and Subjects

Dissertation path

7 subjects (3 credits each),
including 5 Compulsory Core Subjects
+ Dissertation (9 credits)

Non-dissertation path

10 subjects (3 credits each),
including 5 Compulsory Core Subjects
