

Subject Description Form

Subject Code	BRE464
Subject Title	Urban Planning (Workshops)
Credit Value	3
Level	4
Pre-requisite / Co-requisite/ Exclusion	Nil
Objectives	<p>The subject aims at providing the students with:</p> <ol style="list-style-type: none"> 1. A general understanding of the theories of urban and regional planning 2. Quantitative methods of assessing the quality of urban spaces in different aspects (environmental and social) 3. Understanding on the planning system in Hong Kong
Intended Learning Outcomes	<p>Upon completion of the subject, students will be able to:</p> <ol style="list-style-type: none"> a. Understand the theories of urban and regional planning. b. Conduct environmental assessment for urban spaces with simulation tools c. Understand the human factors needed to be considered urban planning and urban design. d. Develop the necessary skills in formulating proposals for urban design and urban redevelopment projects. e. Nurture professional knowledge and social responsibility, obtain problem solving skills and critical thinking through the application of advanced information. technology and generative AI tools.
Subject Synopsis/ Indicative Syllabus	<p>Nature of urban planning and sustainability.</p> <p>Urban and Regional Planning theories.</p> <p>Urbanization and social changes.</p> <p>Town planning system in Hong Kong.</p> <p>Planning Application.</p> <p>Problems associated with urban renewal.</p> <p>Public participation in urban planning.</p>

Teaching/Learning Methodology	The subject is mainly conducted in the format of a series of urban planning workshops, which emphasizes on the participation of the students. Assessment is by means of coursework comprising of term paper, a urban design project and presentations in class. The students would form groups and are assigned to conduct a project on the planning and design of urban spaces. Seminars on current planning issues in Hong Kong will be conducted to provide students with the most updated knowledge in the field. In addition, planning issues in major cities will also be covered to widen students’ perspective on urban problems in the international context. Professionals in the field will be invited to deliver guest seminars to the students to provide students with up-to-date knowledge in the planning and development profession.
