BSc (Hons) in Environmental and Occupational Safety & Health (Full-time) NON-JUPUS

This programme covers two contemporary professional areas in Hong Kong: **environment and occupational safety & health (EOSH)**. It is the only undergraduate degree programme in safety and health offered by local universities for the construction industry. Students can identify, develop and apply good **EOSH professional practices and technologies** based on sound scientific principles and legislative requirements.

Attractive Features

- **Two-year full-time intensive programme.**
- A **unique programme** which combines the fields of environmental and occupational safety & health.
- **Summer placement** in local industrial or other occupational environment, with close supervision by experienced experts.
- Insightful **work-orientated seminars** by professional and experienced practitioners.
- Possibility of **overseas study tour** to extend students' international exposure.
- **Recognition by the Labour Department and professional body.**

Professional Recognition

Graduates can fulfill the academic requirements for registration as **Registered Safety Officer (RSO)** with the Labour Department and as **Environmental Officer (EO)** for government contracts. In addition, they can obtain the membership of the **Institution of Occupational Safety and Health of the United Kingdom (IOSH)**.

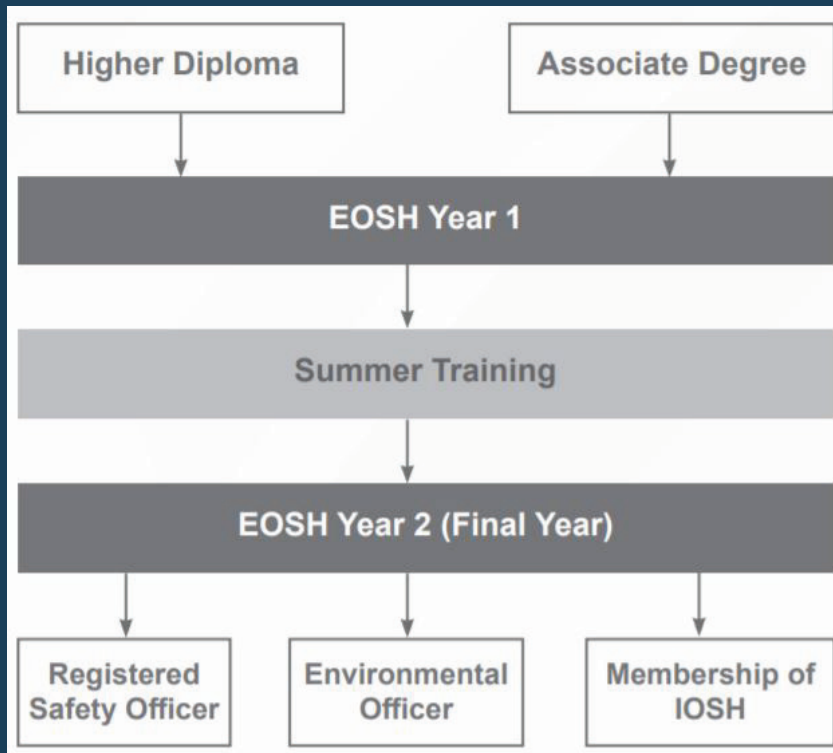

Career Opportunities

Graduates have a wide spectrum of career opportunities in government departments, public utility companies, construction companies, consultants and non-governmental organizations (NGOs).

Entrance Requirements

Minimum academic entrance requirement:

A **Higher Diploma** or an **Associate Degree** in Science/Engineering/Health or a relevant discipline awarded by a local institution.
