

Insights from RAE Reviewer : Prof. Elizabeth Deakin

To strive for the next level of research excellence, CEE has invited renowned scholars, who have served in the previous Research Assessment Exercise (RAE) panels, to give academics insights into the next RAE.

On 15 September 2017, Prof. Elizabeth Deakin, Professor Emerita of City & Regional Planning and Urban Design of the University of California, Berkeley, gave advice to colleagues for better preparation of RAE 2020. Her talk attracted colleagues from different departments of the Faculty.
