

August 2017

**Prof. Yi-qing Ni, Director of CNERC-Rail and his team members attended The 2017 World Congress on Advances in Structural Engineering & Mechanics (ASEM 2017) held at KINTEX, Seoul, South Korea.**

On August 28 - September 1, Prof. Yi-qing Ni and his team members attend The 2017 World Congress on Advances in Structural Engineering & Mechanics held at Korea International Exhibition & Convention Center (KINTEX), Seoul, South Korea. This congress is a premier international forum that brings together academics and practicing engineers to exchange frontier research results in the fusion technologies in the topics of Structural Engineering, Mechanics, Nano, Bio, Robotics, and Energy Research.

As the chair of sessions titled “Structural Health Monitoring of Railway System I & II”, Prof. Ni invited the authors to present and share their research findings during the conference. CNERC-Rail team members also give four presentations to introduce the current their research findings.

Prof. Ni was invited to give a presentation about the introduction of CNERC-Rail and our latest research projects.
