

September 2017

Professor Yi-Qing Ni received the 2017 “SHM Person of the Year” Award (selected by the editorial board of “Structural Health Monitoring: An International Journal”) during the 11th International Workshop on Structural Health Monitoring held in Stanford University on 12-14 September 2017.

The 11th International Workshop on Structural Health Monitoring was held in Stanford University, USA on 12-14 September. This workshop is one of the most important workshops in the research field of Structural Health Monitoring, which invites top-notch scholars and experts to present their research paper at the conference. More than 600 researchers from university, industry and government gathered together and attended the workshop this year.
