## CNERC-Rail members visited National Rail Transit Electrification and Automation Engineering Technology Research Center (South China Base)

On 11 January 2018, CNERC-Rail members visited the South China Base of the National Rail Transit Electrification and Automation Engineering Technology Research Center (NEEC) in Dongguan and had a technical meeting with the representatives. Professor Su Bin, Deputy Director of NEEC and Director of NEEC (South China Base), Mr. He Jiong, General Manager of Beijing Railway Industrial Group Co., Ltd., and Mr. Sun Liang, Director of the Research Institute, attended the meeting. During the meeting, both parties discussed the application of voltage fiber optic sensor technology in high-speed railways. Further cooperation in this field will be carried out in the future.
