

### **Visit by of QingTie Railway Technology of QingHai Company Limited**

On 26 January 2018, Mr. Hong-Cou Gu, Chairman of QingTie Railway Technology of QingHai Company Limited paid a visit to CNERC-Rail. CNERC-Rail also invited Ir. Wilson Ho from Wilson Acoustics Limited and Ir. Dr. Robert Tam, Associate Director of PolyU Industry Center to participate in the meeting. Both parties discussed using new technology in the high-speed railways, including using 3D printing technology to develop innovative Structured Rail Dampers (SRD) for noise and vibration suppression.
