質素保證局讚揚理大致力質素保證

On 9 June this year, the Quality Assurance Council released the Report of the Audit Exercise for PolyU which was conducted in the middle of 2010.

The Report concluded that “PolyU has a long-standing and firm commitment to quality assurance” and that “there is a strong culture of quality assurance in the University”.

The report also commended PolyU for “the clear sense of its vision and mission”, its “deep relationship with industry” as well as its various

innovative and practical approaches used to facilitate student learning.

The panel commended PolyU for “the integration of professional practice in the design of its curricula with an appropriate balance of theoretical and practical knowledge”. It also gave highly favourable comments to PolyU in regard to its emphasis on Work-Integrated Education (WIE) as an institutional strategy to foster students’ capacity for applying theory

to practice, and the effective planning, implementation and support for WIE across the institution.

PolyU has also won the Panel’s commendation for its “well-grounded conceptual frameworks for implementing Outcome-Based Education and an institutional Learning Outcomes Assessment Plan”, as well as the “widespread awareness and support” by the PolyU community for the development and use of learning outcomes within course, programmes, and student support units.

質素保證局於本年六月九日公佈於二零一零年中旬在理大進行質素核證工作的報告。

報告的結論指出「理大長久以來竭力做好質素保證工作」，並確認「該校亦已建立根深柢固的質素保證文化」。

報告亦讚揚理大「有清晰明確的願景與使命」、「與業界建立深厚的關係」，以及善用各種創新與實用的方法來提升學生的學習效果。

質素保證局評審小組認同理大在課程設計中已有效地結合專業實踐，並在理論與實踐之間取得平衡。評審小組亦高度評價理大把校企協作教育 (Work-Integrated Education) 定為長期策略，以培養學生將理論應用於實踐的能力，並且能有效地規劃、實施及提供支援，使校內各院系都積極推行這一策略。

評審小組高度評價理大為實施「果效為本教育」(Outcome-Based Education) 和「全校學習成效評估計劃」(Learning Outcomes Assessment Plan)而設計的概念架構，而且十分欣賞理大全校員工普遍認同以學習成效為本的模式，以及在科目、課程及學生支援服務中制訂和涵蓋學習成效。

評審小組亦觀察到理大設有完善的組織架構推動優質教學，並透過大學的教學發展中心為教學人員舉辦多元而有效的專業發展活動。

PolyU President Prof. Timothy W. Tong expressed his sincere gratitude to the panel and said, “We are strongly encouraged by the Panel’s commendations on our good practices. The Audit findings will make a valuable contribution to our continuous quest for quality assurance and enhancement.”

Prof. Tong was glad that the Panel has acknowledged the University’s endeavours in providing students with a ‘seamless student-centred environment’ to enable them to succeed in learning. He added that much of PolyU’s achievement can be attributed to its dedicated staff members who always embrace quality and innovative teaching.

PolyU will also act upon the advice of the Panel and further improve its QA system and processes in some areas, including the review of the roles and relationships of the University Council, Senate and QA Committees relative to the Council, Academic Board and QA committees of PolyU’s College of Professional and Continuing Education.

理大校長唐偉章教授向質素保證局評審小組致以衷心謝意，他表示：「評審小組對我們良好運作模式的讚許，令我們深感鼓舞。我們相信評審結果將有助理大精益求精，持續提升其教學質素。」

PolyU further advances hospitality education with launch of Hotel ICON 理大開辦教研酒店 銳意提升酒店及旅遊教育的發展

PolyU’s School of Hotel and Tourism Management (SHTM) has strengthened its efforts in nurturing hospitality graduates to address the growing demands of the hospitality and tourism industry in Hong Kong and the region. The School recently moved into its new premises in Tsim Sha Tsui East and has revamped more than 30 subjects within its undergraduate curriculum to tie in with the soft opening of its teaching and research hotel, Hotel ICON, in April this year.

The SHTM has consistently adapted to industry needs since its inception in 1979, refining a distinctive vision of hospitality and tourism education to become a symbol of excellence in the industry. The School’s new education approach, with Hotel ICON at its centre, will help to improve hospitality and tourism education locally, regionally and internationally.

With Asia emerging as the global centre of excellence in hospitality and tourism, PolyU sees the need to advance both

education and research in hotel and tourism management. It intends to make Hotel ICON an internationally recognized brand and the best teaching and research hotel in the world.

Hotel ICON, wholly-owned by PolyU, is located in a complex that also houses the SHTM campus, university staff quarters, research, resource centres as well as faculty and administration offices. The new complex is also home to a wide range of teaching and research facilities, including the Che-woo Lui Hotel and Tourism Resource Centre, the Samsung Digital Lab for Hospitality Technology, Bistro 1979 (the SHTM’s training restaurant) and the Vinoteca Lab (a wine lab).

SHTM is a world-leading provider of hospitality and tourism education. It was ranked No. 2 internationally among hotel and tourism schools based on research and scholarship, according to a study published in the *Journal of Hospitality and Tourism Research* in November 2009.
