

Fresh impetus to learning English

To highlight the importance of learning English and make it an enjoyable experience, the student-run English Club of the English Language Centre hosted the International Pop Culture Festival in February.

During the three-day event, performances and games in various forms of pop arts were staged. There were performances by international musicians, local bands, a Jazz dance group and a skateboard performance group. Students and staff also enjoyed a wide variety of entertaining games related to films, music, fashion, e-games, comics and animation.
