## Season 6: Transitional Social Housing – Deliver with Expediency & Decency | Project Planning Workshop

An online, real-time **Project Planning Workshop** series will be held in 25-27 May 2020, supported by planning and building professionals experienced in the design and construction of Transitional Social Housing (TSH) projects. An Social Innovation Symposium to consolidate experiences in the provision of TSH will also be held on 24 June 2020.

Invitation has been sent to NGO Operators to participate in this three-day Workshop series to learn about practical knowledge of implementing TSH. If you are interested to join, don't miss out!

## Social Innovation Regional Forum (SIRF) | Online exhibition is on now!

While JCDISI regrets to announce the postponement of the SIRF 2019 until late 2020, our firm belief in the power of innovation and collective wisdom has driven us to soldier on.

Organised by JCDISI, the online exhibition is a new initiative to share the social innovation stories and efforts from PolyU Jockey Club "Operation Soinno" and 13 exhibitors in the midst of "Double Ageing", i.e. population ageing and building ageing. In this challenging time, let's work together to spark creativity from civil society!

## What's New

### Recruitment of schools for "SoInno Design Education" 2020/2021

The world is facing different challenges that we have not encountered before. Learning to be adaptable and innovative seems to be the way out for our next generation.

SoInno Design Education is recruiting secondary schools to participate in the programme in 2020/2021. We will work together with you to incorporate design thinking and social innovation into your school to support the curriculum.

## Improving the Health and Well-being of Children Living in Subdivided Units (SDUs): Call for Co-creation Team!

The lack of space to study and play has profound long-term effect on children development living in SDUs. JCDISI has been investigating how creative spatial design and transformative furniture can support children's growth and boost spatial utilisation in SDUs.

For interested parties in furniture design, interior design and children's health and well-being, don't hesitate to share your insider tips and pre-register for the workshop!

## Design Playing: Learning-by-playing Design Game

Design Playing is one of the major components of SoInno Design Education. The process of “gamification in education” let students learn and solve problems in games. In the workshop, students from The Association of Directors & Former Directors of Poi Oi Hospital Ltd. Leung Shing Tak College played the game of making a game. The result showed that their learning experiences and incentive in learning English were improved.

## Design Making: The Construction and Reflection of Knowledge

Design Making is one of the three major blocks of SoInno Design Education aiming to let students design through different materials and in real situation.

In our workshop at St. Stephen's Girls' College, students have to design physical objects based on the concept of “co-experience artefact” with older people. Thereby, the students were able to “see” and revisit their own learning process.

## 2019 Hong Kong Biennale of Urbanism\Architecture TSH Action Project Exhibition

The three-month exhibition at the Mills successfully concluded in March with more than 250,000 people visited the exhibition. Positive comments were received on JCDISI's exhibition of the Sham Shui Po, former SKH Stanley Village Primary School and Ma Wan Old Village Transitional Social Housing prototype scheme models which effectively demonstrated the value of participatory social innovation in envisioning and re-imagining the city.
