

BLENDED LEARNING

Merging Hotel Integration and Virtual World to Improve Student Learning – Experience Sharing of Teaching a Human Resources Management Subject

Presented by

Loretta PANG , Dr. Simon WONG & Nicole WONG

16 March 2012

Funded Project - Background

- ❖ Funding received for a learning and teaching development project

- ❖ Project Team:

Loretta Pang, Dr. Simon Wong, Nicole Wong

- ❖ Using the subject “Human Resources Management in the Tourism and Hotel Industry” as a pilot study

Funded Project - Objectives

- ✿ Use of blended learning to enrich students' learning experiences
- ✿ Helping students' understanding of the course matter, stimulate their interest to participate in different in-class activities and realize their studies by using virtual environment & school-hotel integration

The illustration shows a laptop screen with a matching exercise interface. Three numbered callouts highlight specific features:

- 1**: Points to a "Try now" button.
- 2**: Points to a grid of options labeled A, B, and C.
- 3**: Points to a grid of questions or statements.

The interface also includes an "ANSWER" button and a "Try now" button at the bottom. The background of the screen shows a matching exercise titled "Q2. How will you set up the training room of different types of training?" and "Q3. Important Advantages and Disadvantages of Appraisal Tools?".

GROUP PROJECT GUIDELINES

This project is designed to examine your critical and analytical skills in applying human resources management knowledge, concepts, and theories which you have gained from this course in order to assist in helping the development of certain human resources issues which should fulfil in the pre-opening stage of a new hotel.

This project will be developed by groups of students to fulfill the tasks based on the scenario given. Each group is required to submit a written report with references and appropriate appendices. The use of figures, tables, and diagrams are strongly encouraged to display research information in the most appropriate way. In addition, project presentation is designed for each group to present their work towards the end of the course, it offers students an opportunity to practise vital presentation skills and it is important to all students to understand the ideas of various human resources issues prepared by other groups.

OBJECTIVES:

1. To be familiar with the literature on different concepts of strategic human resources;
2. To understand how human resource concepts or theories can be empirically applied in the area of hotel and tourism industry;
3. To explore your findings, and suggest how they can be implied to the hotel and tourism industry.

Students' Feedbacks on Blended Learning

Tutorial

✓ Interactive

“I loved the games, very interesting, almost everyone had a chance to **play and learn**. It was very different from other subjects. It made a ‘boring’ subject interesting.”

“I enjoyed the games very much, combined with the **debriefing** session, it helped to relate the theories meaningfully. I always looked forward to next week for another **interesting** game.”

““I still remember some of the games we played, it is the way how I can remember and **retrieve the theories** I have learned, also **helpful** in relating to future work scenario.”

Students' Feedbacks on Blended Learning

Second Life Exercise

User-friendly

"It was **very difficult to navigate the avatar**, we encountered many accidents like 'flying' into the sea and it took us many efforts to find the way out, **very time consuming.**"

"It was **not user-friendly** as we thought we could install at home easily but it slowed down the computer a lot as it had a high demand on computer capability."

"The interface was **not smooth**, the loading speed was **slow.**"

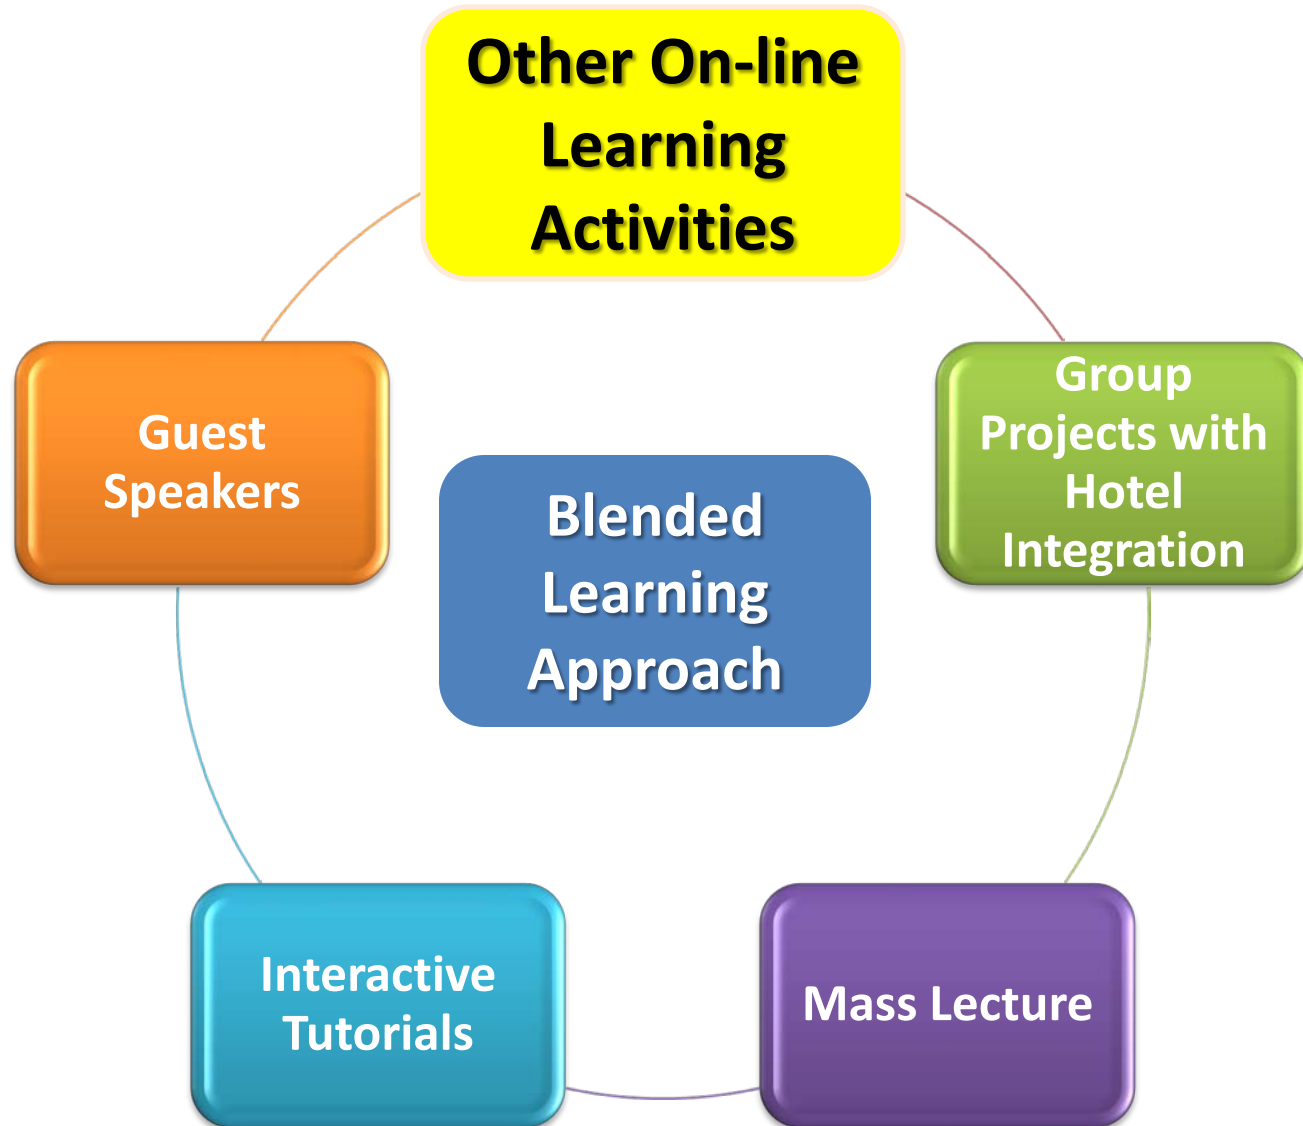

"The registration process for login was **very troublesome**. The login name was very difficult to remember."

Components on Blended Learning

Suggestions by Teachers on each Blended Learning Method

Teaching Method	Suggestions
Mass Lecture	Insightful Stories, Real life Examples Explain Teachers' expectation right at the beginning of semester
Interactive Tutorial	Involve each student in every single experiential in-class activities Explain how the games related to the theories
Group Project	Design creative and problem-based learning opportunities with hotel school Include a progress management mechanism
Guest Lecture	Invite Alumni as Guest Speakers Sharing real life issues and challenges
Preclass Exercise and Second Life Application	Explore user-friendly platform Take into account on student learning styles Allocate sufficient budget and resources for technical support

Recommendations

~ Blended Learning Teaching

1. Use a Combination of Teaching Methods
2. Commitment on Blended Learning
3. Cooperate with blended learning specialist to improve course design
4. Consider students' interest and provide “convenience” in on-line learning

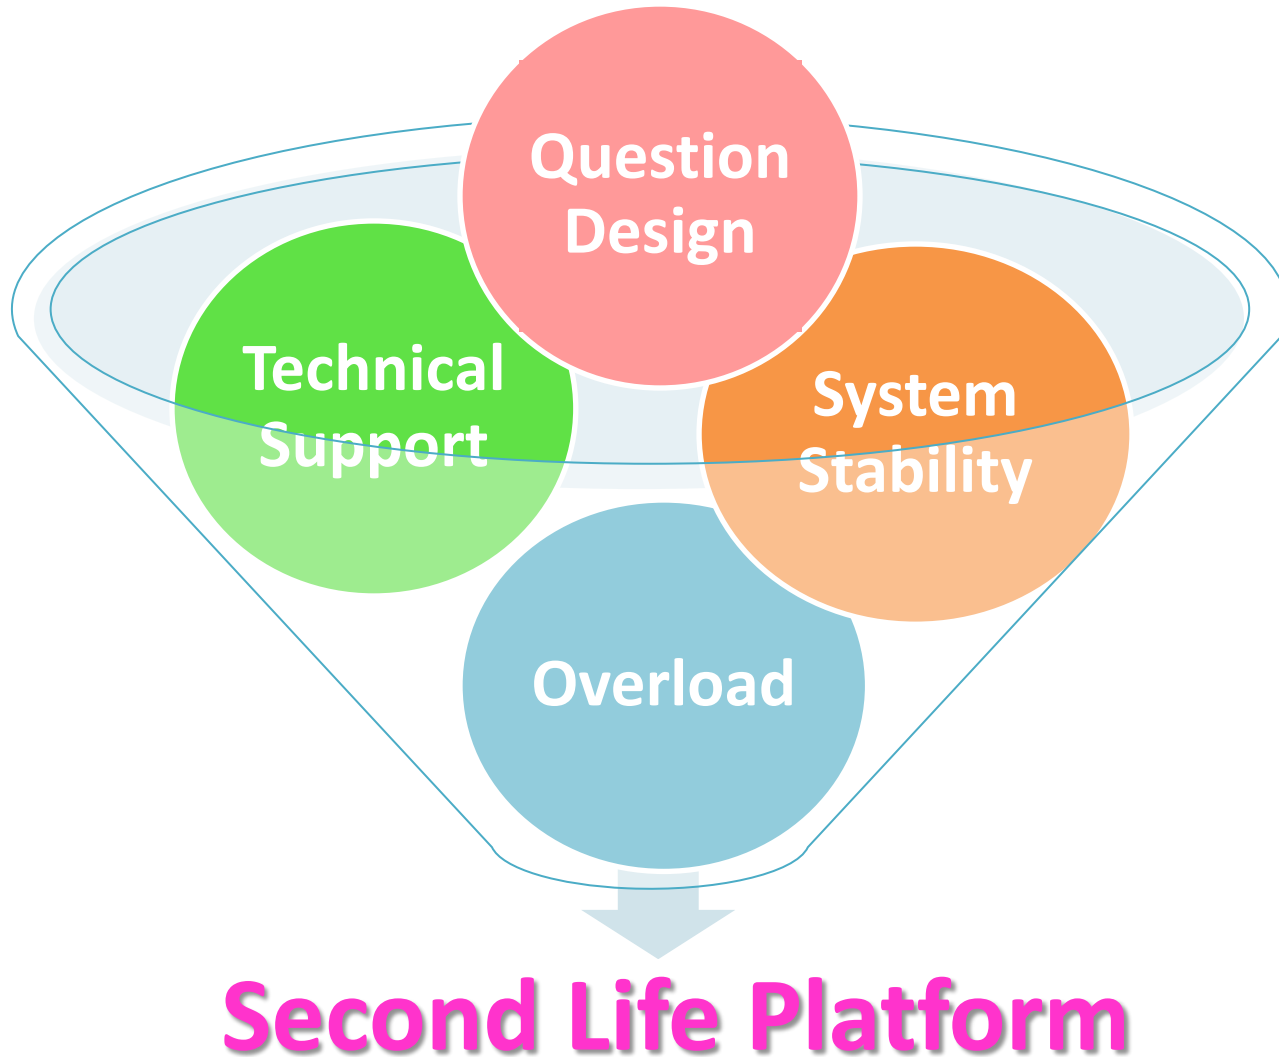

Recommendations

~ Blended Learning Teaching

5. Ensure “user-friendliness” of learning platform
6. Prepare students for a mindset change
7. Implement web component to freshmen
