

THE HONG KONG POLYTECHNIC UNIVERSITY
DEPARTMENT OF ELECTRONIC AND INFORMATION ENGINEERING

Post Title

Research Fellow [Appointment Period: 36 months]

Duties

The appointee will assist the project leader in the planning and execution of the following project:

(MRP/019/21X) High-Power-Density High-Efficiency On-Board Electric Vehicle Charger Based on Thermally Enhanced Silicon Carbide Power Module and Advanced Power Conversion Technologies

He/She will be required to:

- a) work closely with the project leader in the planning and execution of the project;
- b) manage a team of postdoctoral researchers to ensure that the project milestones are duly achieved;
- c) steer the project and actively engage the industrial partners in the project execution;
- d) coordinate the sourcing, delivery, installation and testing, and daily maintenance of the equipment required by the project;
- e) publish high-quality research articles in high-impact journals;
- f) perform any other duties as assigned by the project leader.

Qualifications

Applicants should:

- a) have a doctoral degree in electrical/electronic engineering. Preference will be given to those who have strong background in power electronics and/or power semiconductor devices;
- b) have good project management skills;
- c) be well-organized, capable to work under pressure and able to handle multi-tasking assignments in a multidisciplinary team;
- d) have excellent interpersonal skills; and
- e) have a good command of written and spoken English.

Remuneration

A highly competitive remuneration package will be offered. Applicants should state their current and expected salary in the application.
