

PolyU MBA Open Lecture: Cryptocurrency Asset Management

Cryptomover, a digital asset management firm, has developed index type strategies to help investors diversify their crypto assets.

In this lecture, Cryptomover CEO Gavin will talk about the nascent crypto asset management industry. He will elaborate on a rigorous and quantitative rule based approach to invest in cryptocurrency.

Speaker

Mr Gavin Yeung

CEO of Cryptomover

Biography:

Prior to founding Cryptomover, Gavin worked as a trader at Deutsche Bank in the capitals markets group. He worked at JUCCCE.org as director of partnership development. Prior to JUCCCE, Gavin worked in business development handling Dell's expansion plans in Shanghai. Gavin also worked in Foxconn Technologies in various engineering management positions including designing products for their Apple Computers division in Shenzhen.

Gavin has a passion for automated algorithmic trading and making cryptocurrency investing easier. He founded the Hong Kong Algorithmic Trading Meetup to inspire collaboration among algo trading developers. He believes in the power of distributed computing / ledger technologies and is a founding member of the Bitcoin Associated of HK.

He received a M.S. and B.S. from UCLA in Computer Science and an M.B.A. from University of Chicago Booth School of Business.
