Notes:

- (1) The expected overall contact hours between subject supervisors and candidates for subjects conducted in Mode II on a one-to-one basis or group basis are around 20 hours and 30 hours respectively.
- (2) Subject supervisors are given the discretion to construct a diet of study that will ensure the depth and quality of study. A balance has to be achieved on workload and quality. Say, for mode II, it would be quite reasonable to require students to read several chapters from 1 or 2 books plus 7 to 8 papers, make 2 presentations, submit 2 write-ups and meet supervisors 8 times in a semester.
