Broad-based Curriculum for All-round Academic Development

Studying at PolyU is more than earning a degree—it's a rich experience with many opportunities for learning and growth. Our four-year undergraduate degree programme is designed to provide flexible, student-centred, and holistic professional education that aligns with PolyU's goals and mission. Under this structure, students are required to complete **a minimum of 120 credits** for graduation:

**54-87
Credits**

Major Study

+

**27
Credits**

General University

=

**Minimum
120 Credits**

The flexible Common Year 1 Curriculum* helps students adjust to university life, **explore a variety of subjects**, and **build a strong foundation in their faculty** before selecting a programme that best matches their interests and strengths.

Starting from the 2025/26 academic year, PolyU offers different pathways for students to enable them to tailor their studies to better suit their personal interests. Students with clear academic goals can choose their preferred programmes directly, while those who wish to further explore their aspirations can enrol in one of the **six new bachelor's degree schemes** to gain a better understanding about the different majors within a faculty. Students can also consider our new Bachelor's Degree Scheme in Interdisciplinary Studies, which allows them to design their Major by following a structured curriculum framework for interdisciplinary studies.

*This curriculum does not apply to students from the Faculty of Health and Social Sciences and those enrolled in the Bachelor's Degree Scheme in Interdisciplinary Studies.

Global Exchange and Study Abroad Programmes

With an emphasis on global learning, PolyU encourages students to participate in exchange programmes and international activities including conferences, competitions and an assortment of immersive experiences.

The popular **Summer@OxBridge** programme enables students to attend summer courses at the University of Cambridge or the University of Oxford, fostering cosmopolitan interaction and academic growth.

Supporting Your Outbound Experiences

PolyU is committed to making our global opportunities financially accessible for all students.

Since the 2025/26 academic year, an additional **HK\$30,000 overseas exchange scholarship** has been offered to all graduate students who receive the academic Entry Scholarship, enabling them to participate in non-local learning activities through the Work-Integrated Education programme, Service-Learning projects, exchanges, field trips and more. The University aspires to provide opportunities for all undergraduates to engage in at least one non-local learning experience by the 2027/28 academic year.

Beyond the Classroom @ PolyU

Life at PolyU is more than academic success. Immerse yourself in the vibrant tapestry of campus life. Take part in a wide range of sports, arts, cultural, and wellness activities, and enjoy our comprehensive facilities designed to cater to every student's lifestyle.

WONG Ching-lam

BSc (Hons) in
Mental Health Nursing
School of Nursing
Year 4

Over the past three years, despite a very packed timetable and clinical placement schedule, I managed to develop my passions outside of school. I performed in the annual production of the English Drama Club, participated in the Rowing Team training, sang with the PolyU School Choir, and was part of a student-led A cappella group, as well as contributing to the Amigos Christmas Ball. These precious memories have deepened my sense of belonging at PolyU and encouraged me to seek more opportunities during the remaining two years of my university life.

EMPOWERING YOUR ASPIRATIONS

with Work-Integrated Learning

A Holistic Learning Experience

PolyU offers an experience-focused curriculum through its **Work-Integrated Education (WIE) programme** and **Service-Learning (SL) initiative**.

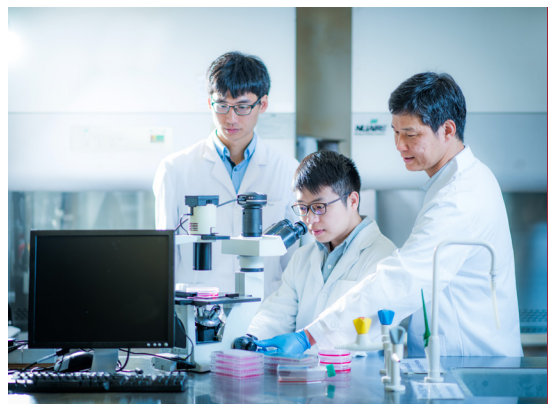

As the first tertiary institution in Hong Kong to incorporate a mandatory WIE component into the undergraduate curriculum, PolyU requires students to complete internships relevant to their academic major, either locally or abroad. This component provides valuable work-based learning experiences that foster all-round development and enhance professional competencies. Meanwhile, the SL initiative integrates meaningful service components into academic studies, nurturing students to become both competent and caring professionals.

TONG Anson

BSc (Hons) in Optometry
School of Optometry
Year 4

PolyU has provided me with ample opportunities to explore the world and unleash my potential through summer exchange programmes and meaningful overseas vision screening projects. I took an active role in screening for eye diseases in communities in the Philippines and Tanzania, collaborating with students from local universities. Through these experiences, I witnessed the critical importance of early vision care. These initiatives not only broadened my global perspective but also equipped me with practical skills and a deeper sense of social responsibility.

Innovation and Research

PolyU is well-positioned to continue driving innovation and nurturing the next generation of intellectuals through the **Undergraduate Research and Innovation Scheme (URIS)** and **Undergraduate Summer Research Abroad Sponsorship (USRA)**.

Students who have successfully enrolled in URIS will receive priority admission to the College of Undergraduate Researchers and Innovators Residential College (Student Halls of Residence). USRA also provides financial support for students to undertake research at leading overseas universities.

MAPPING YOUR FUTURE

with Career and Entrepreneurship Support

Entrepreneurship Development and Support

PolyU comprehensively supports students at every stage of their entrepreneurial journey. In collaboration with industry partners and investors, our signature PolyVentures initiative creates a startup ecosystem that spearheads the entrepreneurial aspirations of PolyU students, assisting them in transforming innovative ideas into successful and tangible business models. The platform offers extensive support, including funding, networking, incubation programmes, training and business matching services.

To date, PolyU has proudly nurtured:

600 Total Active Startups

7,600+ Entrepreneurs

3 Unicorn Companies

26 Ponies (US\$10M+ Valuation)

5 Included in Forbes 30 Under 30 Asia List 2023-25

360° Career Support

PolyU provides extensive industry networks and career planning and development services for students to explore job opportunities, meet potential employers and build their professional network. Individual advisory services, mock interview practice and training workshops also pave the way for students' career success.
