

JUNIOR RESEARCHER MENTORING PROGRAMME 2022

Code:	JRMP2022_04
School / Department:	School of Accounting and Finance
Names of Research Leaders:	Dr Liangliang Jiang, Associate Professor Dr Jimmy Jin, Assistant Professor
Research Topic:	Business Revolution with Enterprise Blockchain Technology
Short Description of the Research Project:	<p>A blockchain is a decentralized, distributed and oftentimes public, digital ledger consisting of records called blocks that is used to record transactions across many computers so that any involved block cannot be altered retroactively, without the alteration of all subsequent blocks. Blockchain technology and Web3 have become hot and popular topics in the business world.</p> <p>The research project aims to train students to learn the cutting edges of emerging blockchain technology and helps students understand the know-how of applying the enterprise blockchain technology on business operations, and further explore the business opportunities of blockchain technology. Students will master the blockchain fundamental, business process management and smart contract applications on blockchain.</p> <p>At the end of this programme, students are expected to present a proposal on the blockchain technology</p>

	applications to business operations, and how to revolute the business using cutting edge blockchain technology.
No. of Places Offered:	4
Frequency of Meetings:	Bi-weekly
