

JUNIOR RESEARCHER MENTORING PROGRAMME 2022

Code:	JRMP2022_23
School / Department:	Department of Applied Social Sciences
Name of Research Leader:	Prof Daniel Shek, Chair Professor
Research Topic:	Qualitative Evaluation of a Positive Youth Development Program in Mainland China: Tin Ka Ping P.A.T.H.S. Project
Short Description of the Research Project:	<p>The Tin Ka Ping P.A.T.H.S. Project is a positive youth development project implemented in 30+ high schools in mainland China. The project attempts to promote holistic development in high school students in mainland China through curricula-based positive youth development programs. To understand the impact of the project on high school students, we have used different methods to evaluate the effectiveness of the project, including qualitative evaluation via student diaries. At the end of the project, students were invited to write a weekly diary documenting their experiences and personal views on the benefits of the project on their own development.</p> <p>In this Mentoring Program, the mentees will learn the basic skills of qualitative research analyses by categorizing the diaries (thematic analyses) and coding the data in the diaries written by the students.</p>
No. of Places Offered:	2 - 4
Frequency of Meetings:	Monthly
