## POLYU TODAY 今日理大

Over the past eight decades, PolyU has developed from a technical institution into one of the top universities in Asia. Our education and research promise of "Opening Minds · Shaping the Future" steers us towards our vision of advancing and transferring knowledge, and providing the best holistic education for the benefit of Hong Kong, the nation and the world.

We take pride in offering a wide range of quality programmes including the mandatory Service-Learning subject for nurturing graduates who are critical thinkers, effective communicators, innovative problem solvers and socially responsible global citizens.

PolyU is also determined to create value and advance society with innovative research, world-changing discoveries and far-reaching partnerships. These achievements ranged from down-to-earth research improving human lives to up-in-space innovations, including anti-cancer drug, special lens that slows down myopia progression in children, fibre optic sensor system applied at railway and contributions made to the nation's moon exploration etc. They all bring positive impact to mankind in different perspectives.
