

Smart Ways to Reuse Straws

Say goodbye to disposable straws and eliminate them from our landfills and our oceans!
 If you can't completely give them up, turn to practical and creative ways to reuse them!

Spices & Toiletries Travel Packs

- Step 1:** Clamp one end of the straw and melt it with the lighter.
Step 2: Put in any spices, toothpaste, or shampoo into the straw and then cut the open end of the straw.
Step 3: Repeat Step 1 to secure the other end.

Bag Clip

- Step 1:** Take two straws and cut one straw down the middle.
Step 2: Take the non-cut straw and wrap the bag over the straw.
Step 3: Slide the cut straw over the bag and the straw and slip it through until it overlaps.

Vacuum Sealer

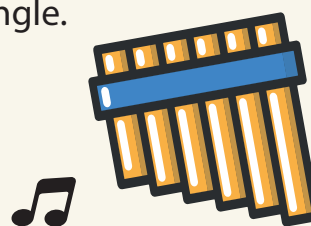

Removing as much air as possible from a zipper-top plastic bag helps to keep the vegetables inside it fresher. You don't need to buy a vacuum sealer. Use a straw!

Kids' Toy: Straw Flute

- Step 1:** Side up the straws on top of the tape.
Step 2: Wrap the tape around to secure the straws.
Step 3: Cut the straws at an angle.
