

GREEN GIFTING IDEAS

Green Tips - Dec 2019

Want to offer gifts to your families and friends while still caring about the environment? Check out these ideas to get you on your way to a happy and green Christmas!

A Local Organic Product

Local organic products have a less environmental footprint. Buying these products means you can also show your support for local talents in this season of giving. Try to buy from local grocers and forgo the imported products!

Examples of local organic grocers on the web:

- FARM MADE 農莊製造
- JiangBaoZi 薑寶仔

An Experience

Giving an experience as a gift rather than a physical object can be something more valuable. It could be a day out, a cooking class, or a music show. In this way, you're not creating more waste but a nice memory!

A Fair Trade Product

Fair trade creates a balanced relationship between producers and businesses. It also reduces environmental degradation. In Hong Kong, more than 100 stores are selling a wide range of fair trade products. Get them in this festive season and visit [Fair Trade Hong Kong](#) to find out more!

A Digital Gift

Giving a digital gift takes up no physical storage space. There is a broad range of options, such as eBooks, magazine subscriptions or useful apps. Why not put them on your list?
