

Undergraduate Research and Innovation Scheme (URIS)

URIS aims to strengthen academic curiosity and enquiry-based learning among PolyU undergraduate students and to nurture the next generation of researchers and innovators. URIS participants will undertake small-scale research projects supervised by teachers early in their studies.

Through research work, you are transformed from merely "Consumers" of knowledge to "Creators" of knowledge

Exclusive Privileges

Scholarship up to HK\$10,000

Project grant

Hall residence

Activities, trainings & workshops

Application Eligibility

- Full-time undergraduate students
- Completed at least two semesters of studies in PolyU
- Excellent academic performance

Application Cycle

- Call for application: around March
- Application period: March - April
- Result announcement: early June

What URIS Students say?

TAI Cheuk Yiu (Year 3)
School of Optometry

Through research studies, hypothetical ideas might come to life. By participating in URIS, we aspire to identify underlying mechanisms of common visual problems.

It boosts my morale to conduct research work that benefits mankind. I gained valuable experience through URIS to learn and create knowledge.

SU Meiling (Year 3)
Department of Aeronautical
and Aviation Engineering
