

CENTRE FOR EYE AND VISION RESEARCH LIMITED

Centre for Eye and Vision Research Limited (CEVR) is a research collaboration between The Hong Kong Polytechnic University (PolyU) and the University of Waterloo (UW) in Canada. It will be located at the Hong Kong Science Park, New Territories, Hong Kong. It will be the first global hub performing ground-breaking research in five key areas – myopia and eye growth, ocular drug discovery and delivery, vision enhancement, tear film and ocular surface and advanced optometric technology. The mission of CEVR is to generate technologies to prevent vision loss in the aging population and preserve healthy vision.

Postdoctoral Fellow (Ref. No.: CEVR-R028)

[Appointment period: twelve months initially, with possibility of further appointment]

Duties

The appointee will assist the project leader in the research project – “Lens regeneration”.

The appointee will also be required to work at the University of Waterloo occasionally to learn instrumentation and techniques.

Qualifications

Applicants should have a doctoral degree or an equivalent qualification in Cell Biology, Molecular Biology or other related disciplines, and must have no more than five years of post-qualification experience at the time of application.

Preference will be given to those with experience in cell and/or organ culture. Experience in instrumentation is also an asset..

Applicants are invited to contact Dr Vivian Choh of the University of Waterloo at vchoh@uwaterloo.ca for further information.

Remuneration

A highly competitive remuneration package will be offered. Applicants should state their current and expected salary in the application.
