

THE HONG KONG POLYTECHNIC UNIVERSITY

SCHOOL OF OPTOMETRY

Post Specification

Research Associate (Ref. 19022716)

[Appointment period: twelve months initially, with possibility of further appointment]

Duties

The appointee will assist the project leader in the research project – “The effect of tissue plasminogen activator on corticosteroid-induced ocular hypertension in sheep – A next generation proteomic study”. He/She will be required to:

- (a) conduct the animal experiments, perform biochemical research procedures such as proteomic analysis, protein identification and validation, and analyse the results;
- (b) provide administrative support to the project; and
- (c) perform any other duties as assigned by the project leader or his/her delegates.

Qualifications

Applicants should:

- (a) have a master’s degree;
- (b) have experience in biomedical research and animal handling;
- (c) have a good command of both written and spoken English and Chinese;
- (d) be self-motivated and show initiative; and
- (e) have good communication skills and willingness to learn.

Applicants are invited to contact Ms Alice Lok at tel no. 2766 6098, fax no. 2764 6051 or email alice.lok@polyu.edu.hk for further information.

Remuneration

A highly competitive remuneration package will be offered. Applicants should state their current and expected salary in the application.
