Post Specification

Teaching Fellow (Ref. 19071507)
[Appointment period: twelve months]

Duties

The appointee will be required to:

(a) engage in teaching and learning activities, and conduct lectures, tutorials and seminars in the related subject areas;

(b) prepare and develop teaching materials, design teaching and assessment strategies, deliver teaching in academic settings appropriate for the objective of learning, interact with and motivate students, as well as assessing the students’ performance and giving feedback to students;

(c) contribute to the development of subject curriculum and pedagogy, overall teaching and learning approaches/strategies as well as subject administration;

(d) assist in development and management of relevant teaching facilities;

(e) participate in pedagogical research; and

(f) perform any other duties as assigned by the Dean of School or his delegates.

Qualifications

Applicants should have:

(a) a master’s degree in a relevant discipline or a relevant professional qualification plus at least three years of post-qualification tertiary teaching experience and/or industrial experience in game design and development, virtual and augmented reality areas, sensors and transducers, body wearable physiological information monitoring systems, and/or acoustics engineering;

(b) extensive knowledge of and expertise in the above-mentioned areas with hands-on techniques;

(c) an excellent command of English; and

(d) good communication skills.

Preference will be given to those with a doctoral degree.

Remuneration

A highly competitive remuneration package will be offered. Applicants should state their current and expected salary in the application.
